WHOLE, THRILLING, PICTURESQUE STORY OF SHRINE WEEK IN ONE ISSUE.  
Saturday's "Times" will include a special colored sheet containing all the reports and all the photographs of the week's events. The floats, the marchers, the gay scenes and costumes. Six days' papers in one. The best paper to send East.

**BIG FIGHT IN OHIO IS DUE**  
Heavy Guns to Open Next Week.  
Taft, Roosevelt, La Follette, Harmon and Others Will Be Campaigning.  
President Will Change Line of Attack in New Series of Speeches.  
Danger of Roosevelt to Industry and Workingmen Will Be Shown.

A report here today, and with Gov. Harmon and several representatives of Democratic candidacies opposed to that of the Buckeye executive, busy Ohio will put all other geographical divisions in the shade with respect to political excitement. President Taft and the lieutenant who were with him on his trip to Ohio this week are hopeful of having a substantial majority of the forty-eight national convention delegates from the State. They realize, however, that the fight is a fierce one and that nothing can be left to luck or chance. Hopes are not based so much on the situation as it exists today as on the strengthening of sentiment in the President's favor that is expected to follow further activities on the stump by the President in person.

The lower picture shows the President (seated) working in his office with his secretary. President Yuan is at the present time having difficulties with the factions of the republicans which take opposite sides on the question of the big international loan without which China will be in still greater peril.

Great Address Last Night in Los Angeles to a Big Crowd.

WHEN Hon. Philander C. Knox, Secretary of State of the United States, stepped upon the platform in Solomon's Hall last night to speak in behalf of his Chief's candidacy for re-nomination, he was greeted by indisputably the largest audience that has assembled at any Los Angeles political meeting for any candidate whatsoever during all this primary campaign. It was an enthusiastic gathering, an audience stirred deeply by a sentiment of loyalty to the Republican party and its great leader, President Taft, and before such an assembly Secretary Knox drove home argument after argument, all of which were greeted with enthusiastic applause. Cheers frequently reverberated through the great hall, and there was not one point that missed applause.

after many denials, that he is the

man who deserted a wife and three

children in Holgate, O. twenty-five

years ago, James E. Gawley, alias

McGawley, has arranged to settle

with his wife for \$1000 and is now in

Washington to raise the money on

property which he owns in the vi-

cinity of Hoquiam and Aberdeen.

According to the agreement, Mr.

Gawley, who traced her husband here,

will accept this sum in full settle-

ment and will obtain a divorce from

her delinquent spouse. It is ar-

ranged that Gawley, alias McGawley,

will then marry the woman with

whom he resides here and with whom

he eloped when he deserted Mrs.

Gawley and their three children.

All Gawley's pretensions that

Mrs. J. E. Gawley, the woman de-

serted in Holgate, O., was not his

lawful wife went for naught when

Hector Gawley of San Bernardino

Cal., his half brother, nearly 80 years

of age, took the stand before Judge

Cleason last week, and exposed the

facts.

Between sobs, the old man told

of having shielded his brother for

quarter of a century. His conscience,

Hector Gawley said, finally forced

him to tell the truth and assist the

deserted woman in procuring her

rights.

new commissioners will be appointed

within a few days to replace the origi-

the selection of the commission to a

State building by Nevada in com-

parison to the amount of space de-

elected on December 13 last will

probably serve until January 1, 1915.

The House of Representatives today

killed the bill proposing a general

election in November. The

measure had been introduced to cor-

rect an ambiguity in the Constitu-

tion, one clause of which stated that

the first State officers should serve

until January 1, 1912, and another

the Union. Actual admission came

in February of this year.

The House also defeated the mea-

sure originating there to establish a

# WATER PILING UP IN SOUTH.

Creeping Across an Already Submerged Section.

Rest of Louisiana Receives New Lease of Life.

Recrud Negroes Constitute Grave Menace in State.

BY DIRECT WIRE TO THE TIMES.

NEW ORLEANS, May 9.—[Exclusive Dispatch.] While waters from the river and Bayou des Glaises crept across the former now three-quarters of a mile wide, kept up their steady progress towards the inundated portion of the Louisiana sugar belt, the day was a reassuring one for the rest of the State. Sunbathing weather helped harden the remaining levees and spurred the workers on to greater efforts. At nightfall but one point remained a threat. That was Baton Rouge, where a protection levee will prevent extensive damage when the main dyke goes out, a matter now of only a few hours.

Refugees continued to tell tales of many persons drowned and relate narratives of great hardships, but so accustomed to these have the men of the various camps become that they are compelled to turn seemingly deaf ears to supplicants begging news of missing fathers, husbands or children. So far there has been no report of the marooned people, the general complaint of the boat crew being that the victims are unwilling to leave their ruined homes even in the face of almost certain death.

The handling of the refugees and the flooded districts today presents an increasingly serious problem. The negroes recrud from the various sections constitute a particularly grave menace. Free government rationing, without which they would have starved, seemed to have demoralized them completely, and even when forced to work upon the levees many of them perform their duty in nearly useless fashion.

The Governor from Baton Rouge and a telegram in reply to a message from G. G. Villard of New Orleans, in charge of the executive board of the national association for the advancement of colored people, who complained that negroes were being forced to work upon the dikes. The Governor explained the situation and asked his message with reference to the fact that he has been laboring day and night and in his shirt sleeves, in the common cause.

The official gauge of the river at New Orleans is 21.4, exactly a foot higher than the highest previous mark. The most pessimistic think the additional rise cannot exceed half a foot, though water is standing on the shores of the splendid dock system in the city.

The city cannot absorb the water which flows in a little seepage water which causes no inconvenience.

It is believed that the levee has been repaired for the past twenty-four hours, and the water below New Orleans is now at a safe level.

The levee was repaired, though it would have caused little damage had it been allowed to continue.

New Roads, heretofore considered perfectly safe from the Tensas flood, are now being inundated. Boats are being built and others are being used by the townspeople for a means of escape.

Locals at the parish being visited are being warned to leave. The levee is being repaired, but it is believed that the levee has been repaired for the past twenty-four hours, and the water below New Orleans is now at a safe level.

## WAR SECRETARY DEFENDED.

Minority of the House Military Committee Finds He Went the Limits of Leniency With Ainsworth.

BY A. P. NIGHT WIRE TO THE TIMES.

WASHINGTON, May 9.—A strong defense of Secretary Stimson and an attack on the majority of the House Military Affairs Committee, for its report on the circumstances, which led to the retirement of Adj. Gen. Ainsworth after a threatened court martial, are contained in a report submitted to the House today by the minority members of the committee.

The minority report declared that the majority exceeded its authority and framed a report containing "intemperate statements." It upheld the conduct of Secretary Stimson toward Gen. Ainsworth.

"A consideration of the entire record," it concluded, "makes it clear to us that the Adjutant-General was not unfairly treated. There was no garbling of evidence, or distortion of language. On the contrary the record shows that the Secretary of War went almost the extreme of leniency."

VANDERBILT VS. GROCER.

Millionaire Says He Didn't Get 'Em, Didn't Eat 'Em and Doesn't Owe a Cent for 'Em.

BY DIRECT WIRE TO THE TIMES.

NEW YORK, May 9.—[Exclusive Dispatch.] William K. Vanderbilt, Jr., says he didn't get 'em, didn't eat 'em and doesn't owe for 'em. He refers to groceries valued at \$442, which Albert Klenk, a Fourth-avenue grocer, declares he supplied to the millionaire about five years ago.

Klenk has filed suit against Vanderbilt alleging that between April 22, 1907, and September 4, 1907, he supplied edibles to the value of \$888, which went to stock the cook's galley of the private yacht Taran-tula. He says \$246 was paid in account, and the amount sued for is the balance alleged to be due.

Vanderbilt, through his attorneys, today filed a general denial.

Man Alleged to Have Been Involved in the Wire Pool Says His Order to Destroy Evidence Was Only Partially Executed and the Government Got the Papers.

BY A. P. NIGHT WIRE TO THE TIMES.

NEW YORK, May 9.—The question whether officers of the American Steel and Wire Company ordered the destruction of the evidence used in the so-called Jackson wire-pools case before or after the filing of the pending indictment against the United States Steel Corporation was answered today.

Frank Baackes, vice-president of the wire company, testified before Commissioner Brown that he had given the order to George A. Cragin, his assistant sales manager at Worcester, Mass., last September, or early in October. The suit was filed on October 25.

Baackes testified further that he had given orders after the dissolution of the wire pools three years ago for the destruction of all the papers connecting his company with the pools, but that the order had been executed only partly. It was due to this oversight that the papers now in question came into the hands of the government.

This testimony came somewhat as a surprise, as it was elicited by the steel corporation's attorneys after they had sought to prevent Baackes from answering questions regarding the dates of his visits to Worcester, where the papers were destroyed by Harry J. Whitney, a subordinate, who subsequently resigned.

Whitney has testified that Baackes gave him the order personally during a visit the latter made to Worcester in November and that at the grand jury investigation into the disappearance of the papers an effort was made by Baackes and Cragin to guide his testimony in this regard. The latter denied Whitney's testimony, but neither could give the exact dates upon which Baackes visited Worcester.

While Cragin was on the stand Judge Dickinson, for the government, tried unsuccessfully to get the witness to say that James H. Farrell, now president of the United States Steel Corporation, was aware of the wire pools. Cragin stoutly denied that he had ever had any correspondence or any conversation with Farrell on the subject.

NEW YORK, May 9.—[Exclusive Dispatch.] Mme. Vieta Penasco, niece of Jose Canalejas, Premier of Spain, went back to Europe today on the Provence, probably the most unhappy person on the ship.

Four weeks ago Vieta Penasco and her bride embarked at Southampton on the Titanic. The bride got away in a lifeboat and was saved by the Carpathia. The bridegroom went down with the Titanic, and more than \$50,000 in jewels, their wedding gifts, were lost, as were 17,000 francs in money.

Her uncle, Dimeitrio Castellano, came on the Provence to take his niece home.

Harmon Tells Bryan If He Has Any Goods on the Ohlson He Ought to Display Them.

BY A. P. NIGHT WIRE TO THE TIMES.

COLUMBUS (O.) May 9.—Gov. Harmon today sent a telegram to William J. Bryan further denying charges made by Mr. Bryan in Finlay yesterday that friends of the Governor had tried to purchase Bryan delegates in 1908. He said:

"I repeat that no one was authorized by me, or with my knowledge, or consent, ever tried to purchase delegates. I never heard of such a thing except from your statement yesterday. At the date you mentioned, I had accepted the nomination for Governor of Ohio, and I was making no effort for the Presidential nomination. If you have a letter showing what you say, why don't you publish it? The people are entitled to the facts and I wish them to be known."

## BIG FIGHT IN OHIO IS DUE.

(Continued from First Page.)

view of directing more specific attention to what might be expected if Roosevelt is chosen to lead the Republican party and perhaps again be elected to the highest office in the land.

During his campaign recess here, which will be broken by a trip to New Jersey on Saturday to participate in the installation of the new president of Princeton University, President Taft will consider suggestions pertaining to his new series of speeches. He may prepare at least one set speech as he did prior to getting into the campaign in Massachusetts.

ROOSEVELT MENACE.

One of the possibilities of the new attack is a line of argument designed to convince voters that Roosevelt's election for a third term would be a menace to prosperity and a tremendously disturbing influence on business affairs generally. The new radical ideas that Roosevelt has espoused, it may be declared, would lead to depression in all branches of industry, pending the development of his programme. Forceful utterance applied to the arguments of the Taft side, coupled with the general idea already referred to, particular attention may be directed to the tariff issue, the contention of the Taft side being that Col. Roosevelt always fought shy of the tariff when he was in the White House, and that he now has no well-defined policy with respect to the subject. Arguing from these premises an effort may be made to show that if Col. Roosevelt again was in the White House the tariff situation in Congress would become more of a muddle than ever, with consequent injury to business of all kinds.

Roosevelt, in his campaign, has much to say about alleged corruption in the election of Taft delegates to the national convention in many States. A way of turning the tables of attack on the Roosevelt forces for alleged corrupt practices incident to the recent primary in Maryland is under consideration. President Taft himself may make a statement on the subject. If he does it will be to declare that the negroes in Maryland were driven in droves to vote for Roosevelt by men to whom large amounts of money were given for the purpose of carrying on their work.

Taft Men Have It Now That Silver Bow County Delegates Are Instructed for President.

BY A. P. NIGHT WIRE TO THE TIMES.

BUTTE (Mont.) May 9.—The Silver Bow county Republican convention, which includes Butte, today elected sixty-five delegates to the State convention, with instructions to vote for the renomination of President Taft. It is claimed this county holds the balance of power in the convention.

CLERICALS PLUS SOCIALISTS.

They Mean to Co-operate to Put an End to Duelling in the German Army.

BY A. P. NIGHT WIRE TO THE TIMES.

BERLIN, May 9.—The clericals today introduced a resolution in the Reichstag asking the Imperial Chancellor, Dr. Von Bethmann, to take steps to end duelling in the army, particularly the practice that makes it compulsory for an offended person to challenge the offender or leave the army.

Pending this reform the resolution demands the observance of the imperial order of 1897 restricting duelling. The resolution will be adopted as the clericals and Socialists demonstrated yesterday that they have a clear majority when co-operating.

**Florida, Stocky Man Sought  
as Woman's Slayer.**

**Fire-charred and Battered  
Corpse Unidentified.**

**Body Found in Vacant House  
by Curious Youth.**

The partially burned corpse of an unidentified woman 39 to 35 years old was found by Finis Benjamin, a car-

The Victim.

porter's apprentice, in a newly-finished vacant house at No. 4185 Arlington street, yesterday afternoon. The body was lying in a hallway on the upper floor, the head in a pool of congealed blood. Parts of a broken beer bottle lay about, and there were evidences of a struggle. The woman's empty purse was near.

The police and the coroner's representative found that the woman had died of a fractured skull from a blow probably dealt with the beer bottle.

The man suspected of the murder is described by three persons living on Arlington street, as a stocky, florid-faced person of medium height, dressed in a dark blue suit and brown felt hat. He got off the Vermont-avenue car at Arlington street Tuesday night at 11:50 o'clock, carrying a suitcase, and accompanied by the woman, proceeded south to the house, which is two blocks from the car line.

**ARE THEY CONNECTED?**

Besides this valuable clue the finding of a suitcase in the woods at the junction of the Los Feliz road and Monte Vista station on the Glendale car line, may have some bearing on the case.

"The sweater may have this, as I am going straight to hell—Thomas C. Butt," was the inscription scrawled on a note, found inside the suitcase, which contained men's clothing.

Young Benjamin, the lad who found the body, is 16 years old, and is helping his father, W. T. Benjamin, a carpenter, who resides at No. 1232 South Olive street. Both are working on an unfinished house at No. 4123 Arlington street, in a sparsely-settled district, where houses are built for sale by a large contracting company.

The lad, saying he wished to examine the thing done in the interior of the house at No. 4185 Arlington street, entered the open back door. His curiosity led him to go to the second story. As he stepped on the landing he saw the feet of a body lying on the floor of the hallway, the skirts burned above the knees, the head in a pool of blood.

**FRIGHTENED LAD FLEES.**

The boy wanted to see no more, but almost overcome with fright, bolted down the stairway and out of the house to tell his discovery to his father.

The elder Benjamin, with R. F. Prather, of No. 778 East Fourteenth street, and J. Coffey, No. 569 East Washington street, who were working with him, found that the woman's body had been partially covered with floor paper and then not at all.

The asbestosed paper was barely charred, but the woman's skirts were almost burned off and her lower limbs charred. The ignominious character of the burning of the body and the covering up of the crime.

Benjamin testified that the University station and Patrolman Wenzel responded. The latter found finger prints on pieces of the beer bottle used to assault the woman, and discovered that the blood had soaked through and appeared on the ceiling of the bath-room underneath. He found hairpins all about and evidence of a fierce struggle. Finger-prints in blood were also found on the window-sill on the landing. These may yet identify the man.

The woman's hat, a blue straw affair, with a pheasant feather on each side, was ten feet away from the body. She was dressed in a blue-sequin suit, white shirt waist, No. 4-A shoes marked 27-1-K, \$15.50, 44, blue and white silk elbow gloves. She wore around her neck the emblem of two Catholic orders, a Sacred Heart badge and an emblem of the Holy Name parish, Chicago, Ill. A leather purse, two handkerchiefs, with the laundry marks "C.D.X." and "X.A." were found.

The suit was purchased from Marshall-Fields & Co. of Chicago. Two upper front teeth were porcelain and set in a red rubber bridge. The hair was done up pompously over a heavy "jane." Near the body was a black valise with gun-metal bands and patent leather on top and bottom. There was no money or jewelry.

The body was taken to the morgue of Hreece Bros., where Dr. Campbell, autopsy surgeon, found that death had occurred from twenty-four to thirty-six hours before, and that the woman would soon have become a mother. Three teeth had been knocked out. The body weighed about 165 pounds and was 5 feet 2 inches tall.

Dr. Campbell stated that the woman had probably lived ten or twelve hours after she had been assaulted, as she lay thrashing around in the broken glass and her own blood.

Frank E. Martin, the owner of the house, who resides at No. 1274 West Twenty-second street, says that he had requested the police to search the house, because lights have burned inside for two weeks. He was tendered a bill of \$5 cents for electricity current, supposed to have been used in the house recently. Neighbors have noticed lights burning on one or two occasions. The house was probably a rendezvous for the couple.

Mr. and Mrs. H. L. Porter and Mrs.

**Scene of the Killing of an Unknown Woman.**

The discoverer of the remains, and one of those who saw the slayer, and her hat, handbag and charm. The body was found in this vacant house, No. 4185 Arlington street, the cross indicating the location of the room in which it lay. The crime was committed with a beer bottle. A good description of the man who committed the deed has been obtained.

Porter's sister, Miss Katherine Kavanaugh, who resides at No. 4221 Arlington street, when returning from the first electrical parade on Tuesday night, saw a man and a woman answering the description of the murdered woman, and the man was wearing a dark blue suit and brown felt hat. The woman appeared to be lithe and was pale. The man was careful in assisting her to get off the car.

The Porters and Miss Kavanaugh proceeded to their homes and gave attention to the case today. They learned of the disappearance of the woman, and the man was rather neatly dressed in a dark blue suit. The couple did not attract attention until they were about to get off the car. The Porters thought nothing of the circumstances, but the discovery of the body brought the fact vividly to their minds. They say that they saw no lights in the house at any time.

W. D. Holton, who lives at No. 4015 Arlington street, says he saw lights in the house on two occasions and thought that some one was preparing to move in.

Detectives Rich and Roberts are working on the case today. They have learned of the disappearance of the woman, and they do not connect her with the case.

**HILL TO MINE ORE.**

As Soon as the Steel Corporation Leases on His Property Expire He Will Start on the Job.

**DULUTH (Minn.) May 9.**—After the expiration of the United States Steel Corporation's leases on the Hill ore properties, in 1915, the Hill interests will mine their own ore and enter the market as independent producers, according to D. M. Philbin, manager of the Hill ore properties.

When the first announcement by Louis W. Hill that "we will soon be in the mining business ourselves" was made several days ago, ore interests generally expected that some cheap ore would be thrown on the market after the steel leases expired. Mr. Philbin said today:

"There will be no cheap Hill ore in the market at any time. An ore-plant is to be developed on the Hill lands and operate the mines on some-what the same plan as the Oliver Iron Mining Company operates for the Steel Corporation will be effected."

"The Hill interests positively will grant no more leases to other interests."

By the time the Steel Corporation's lease expires, the Hill interests will be prepared to sell and deliver a large tonnage annually. The new system doubtless will be more profitable to us per ton of ore than under the present lease."

**THREE STEAMERS AGROUND.**

Going to Assistance of Vessel Carrying American Tourists Two Other Boats Get Fast.

**COLON, May 9.**—Two steamers have gone aground in trying to assist the Royal Mail steam packet company's steamship Arcadian, aground on Salmadina bank. The United Fruit Company's steamer Metaphon, which left New York on April 24, and the Harrison liner Workman, which came to the Arcadian's aid, are now aground on the same bank.

The canal tug boat Empire and the United Fruit Company's steamer Zapaca, which left New York May 1 for Kingston, Jamaica, are now going to render assistance. The Empire is a tug, and the Zapaca is a cargo ship. Both are owned by the United Fruit Company.

Everybody on board is reported safe.

The Arcadian carries a large party of American tourists on a cruise of West Indian and Central American ports, including a stay at the Panama Canal.

Operating from Escalon as a base where Gen. Orozco and his staff are stationed, the liberal forces continue today to tighten their cordon around the heavily-fortified and fortified Federal outposts at Bermejillo and Mapimi, both towns being less than twenty miles from Torreon. While much skirmishing has been in progress, no battle had been fought up to 5 o'clock today, the liberals did not feel at some point to coax the entrenched Federalists into the open, but the latter refused to take the bait.

In the meantime, Gen. Orozco massed his men and got them into positions where his artillery could support them. By the bringing up of more guns and dynamite bombs last night Orozco believes he can take the Federal outpost by assault and drive those Federalists not killed and captured into Torreon for a last stand.

## PIG IRON SHIPMENT MARKS AN EPOCH IN CALIFORNIA.

[BY A. P. NIGHT WIRE TO THE TIMES.]

**S**AN FRANCISCO, May 9.—The first carload of pig iron ever shipped out of California and the first commercial lot of electrically melted pig iron ever shipped anywhere, left Shasta county for Salt Lake City today.

The ore was mined from large deposits on the Pitt River, close to the smelter, which now has a capacity of twelve tons daily and has been in continuous operation for twenty-three days. A second furnace is building. Heat is generated by electricity transmitted from a water-driven power plant. The process has been perfected by scientists of Stanford University, co-operating with practical ironmasters, after six years of experiments.

California is rich in iron, but barren in coal, and the cost of importing coking coal has made blast furnaces unprofitable. The company believes it can compete successfully in western markets with eastern and southern pig iron.

The men in the field are in good condition. A high wind has blown cleared the air, and the military of alkal dust and enabling the liberals to move freely without fear of detection.

Just when the long-looked-for battle will be fought is problematical, but it will not be fought until the investment of the best of the military of alkal dust and enabling the liberals to move freely without fear of detection.

**TWELVE HOURS OF SKIRMISH FIGHT.**

**JUAREZ (Mex.) May 9.**—Rebel leaders here tonight admitted that the vanguard of their force had attacked Bermejillo on the way to Torreon and had met stubborn resistance all day. Reports of twelve hours of skirmishing have reached here.

According to Col. Pascual Orozco, Sr., father of the rebel military chief, there are 8000 insurgents entrenched near Bermejillo and about 3000 Federalists.

A dispatch from Escalon stated that a courier from the front brought news that the Federalists from behind strongly-fortified positions were warding off the invading rebels with a heavy artillery fire.

Gen. Huerta, commander of the government troops, is said to be well toward the front of his army, directing operations.

Officials here made public further details of the recent fight near Cuatro Ciénegas. It now appears that Gen. Salazar was driven back westward, an important railroad center north of Torreon, with the idea of flanking the rebels from the south. He was repulsed, but he managed to escape along the railroad to Cuatro Ciénegas, which town he still holds. that nine-tenths of the lawlessness being committed every day in all parts of the republic, is not done by insurgents, but by bandits taking advantage of the situation and calling themselves insurgents.

A message tonight at Orozco's headquarters near Bermejillo at 7 o'clock tonight, states that the rebels had been entirely successful in their first clashes with the Federalists and that Orozco had settled his army into a siege of Torreon and its surrounding defenses.

**NEW ERA HEARS OF REBEL DEFEAT.**

**MEXICO CITY, May 9.**—Nueva Era, the administration organ, in a special dispatch received from Torreon, says it is reported that the advance force of the Federal army attacked and routed 400 of Gen. Pascual Orozco, the military chief of Chihuahua, yesterday.

The rebel force retreated to Carrizal, leaving behind many dead and wounded and a rapid fire gun.

**MOUNTAIN CLOVEN BY AN EARTHQUAKE.**

**GUADALAJARA (Mex.) May 8.**—More than a dozen earthquakes were felt here at intervals from 8:30 o'clock this morning up to 5:50 o'clock this evening.

The last shock was the most severe and some adobe houses were damaged. No injury to persons here has been reported, though many were greatly alarmed and thousands passed the night out of doors.

There is an unconfirmed rumor that there were some fatalities at Tepic.

**FEDERALS REMAIN IN THEIR TRENCHES.**

**AT THE REBEL FRONT, NEAR BERMEJILLO (Mex.) May 9.**—Skirmishing between the vanguard of Gen. Orozco's army and the Federalists under Gen. Huerta continued for hours today through a cyclone of wind and dust on the desert plains in front of Torreon, the objective point of the rebels.

Operating from Escalon as a base where Gen. Orozco and his staff are stationed, the liberal forces continue today to tighten their cordon around the heavily-fortified and fortified Federal outposts at Bermejillo and Mapimi, both towns being less than twenty miles from Torreon. While much skirmishing has been in progress, no battle had been fought up to 5 o'clock today, the liberals did not feel at some point to coax the entrenched Federalists into the open, but the latter refused to take the bait.

Notwithstanding the intense heat,

**HOME RULE WINS.**

(Continued from First Page.)

home rule now become part and parcel of the Tory party.

Andrew Bonar Law, leader of the opposition, assailed the bill fiercely. The government, he said, was setting up customhouses not to create a union, but to destroy the union which already existed. He denounced the safeguards in the bill as utterly futile, condemned the financial provisions and drew a gloomy picture of Ireland's future under home rule.

Every new Parliament of inexperienced men, said the speaker, tried to get the millennium in a hurry. The new Irish Parliament would launch all sorts of schemes for improving the condition of the country, borrowing money for the purpose. As a result, the Imperial Parliament would become liable for a huge capital sum it would not have sanctioned and for expenditures over which it had absolutely no control.

Referring to the example of South Africa, which had been cited to justify home rule, Mr. Law said that in South Africa the two races wanted to be united, but the two races in Ireland, numbering a million, was bitterly opposed to home rule. He asked, in such circumstances, under what principle did the Prime Minister justify forcing the acceptance of the bill on Ulster?

In conclusion, the opposition leader said that the government never could carry the bill through unless it was first submitted to the judgment of the country.

Premier Asquith wound up the debate for the government in a forceful speech, which aroused great enthusiasm on the part of his supporters. No serious attempt, he said, had been made by the opposition to meet the argument with which he opened the discussion—the character and persistence of the Irish demand. Had this demand been made under similar conditions by any community of the world, it would have been met by the British people, and it was entitled to consideration.

A demand so persistent, continued the Prime Minister, was one to which a democratic Parliament, in these days of intense nationalism, would have been eliminated in the House of Commons, there still would be a majority of 50 or 60 for home rule.

Referring to the Ulster threats, Mr. Asquith said he believed the British people to be just and generous. They detested intolerance and persecution, and they would not be the people to be frightened out of what they believed to be just by language of intimidation. The government had asked repeatedly what further safeguards were desired, but the only answer of the opposition was that they would receive from Ulster nothing but unyielding and uncompromising resistance.

Dealing with the safeguards, the Premier said that if the Irish Parliament passed acts transcending the bounds that the government had set, those acts became void. No one was bound to obey them; no one could be punished for disobeying them. The bill was final in the sense that it was the settlement of a long-standing warfare, but no one claimed for it that there might not be a necessity hereafter to modify some of its provisions.

## YOUR HEALTH

The Most Important Thing in Your Life

Your health is the most important thing to you. Everything else depends on it.

Acute attacks of sickness, such as fevers, call for medical attendance and have their proper treatment. But it is not acute diseases that cause the most suffering, misery and unhappiness. It is the condition called debility, when the body is run down by overwork, overstudy, worry or excesses, that results in most of the time lost from work, in empty pay envelopes, badly kept homes, poorly cooked food, neglected children and unhappy families.

When you do not feel as well as usual, when no particular organ of the body seems to be at fault yet the whole system is out of order, when you are nervous, irritable, lack appetite, energy and ambition, it is a tonic that is needed. Strong medicines that stimulate certain organs, as the heart, stomach or kidneys will not help your condition and may make it worse. Your whole system lacks tone and the remedy must be one that benefits the whole system.

No medicine is so exactly suited for such a run-down condition as a tonic for the blood. The blood reaches everywhere, penetrates practically every portion of the body and an improvement in its quality is quickly followed by a

general improvement of the whole system. With this improvement the body gets increased power to fight off disease and to overcome and cast out its disease germs that have begun their destructive work. The best insurance against disease is rich, red blood.

Dr. Williams' Pink Pills for Pale People are the best blood tonic. Improvement starts with the first dose. Soon the increased color in cheeks and lips shows that the thin blood is being enriched. This visible improvement in the blood is as quickly followed by increased appetite, by a return of energy and ambition and renewed vitality.

For that run-down condition, when other remedies have no effect and you have been continually growing worse and more hopeless, Dr. Williams' Pink Pills offer just the strength needed and you should certainly give them a thorough trial. They will cure others; they will surely benefit you.

Our booklet, "Building Up the Blood," will interest and help you. It is free on request.

Dr. Williams' Pink Pills are sold by all druggists or will be sent, postpaid, on receipt of price, 50c per box; six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y. Drive Chicago Man to tempt Suicide.

Wants to Die Because He Unable to Keep Family

Court Extends Sympathy and Discharges Him.

(BY DIRECT WIRE TO THE TIMES) CHICAGO, May 9.—[Exclusive Dispatch.] "Loan sharks drove me to the verge of suicide. They have been bleeding me to death. I wanted to die because it was useless for me to support my wife and children. I had no money and I was in debt. I was in the stock exchange building. I had paid back nearly all of the \$25,000 I found I had to borrow \$10 more."

"Instead of giving me credit for the money I had paid back, they made me pay \$15 and charged me \$18 for nine months. I have been here since then. I still owe \$33. They would go to my home and make me pay my job if I didn't straighten up. They took a mortgage on my house. I held goods and said they would clear out my home. I grew disgusted with the whole thing. I wanted to end my troubles by turning on the gas. I kept the troubles from my wife until a few days ago. She was angry because I hadn't paid the rent. 'You have the sympathy of the court,' said Judge Caverly. 'You are discharged.'"

## TO AID ALLEGED INSANE.

Society Organized Aiming to Save  
Sane People From Being Held in  
Asylums as Mad.  
(BY A. P. DAY WIRE TO THE TIMES.)  
NEW YORK, May 9.—The new  
organization to apply for incorpo-  
ration under the New York State laws  
is the "American Society for the Pro-  
tection of the Alleged Insane," which  
aims to save sane people from being  
held for insanity. The incorporators  
claim that many cases where sane  
people were pronounced insane, and  
committed to institutions, and ulti-  
mately discharged after legal fights,  
prompted clergymen, lawyers and  
physicians to organize this society for  
the purpose of preventing such mis-  
management of justice.  
"A case in point," said the Presi-  
dent of the society, "is that of Mary  
Elizabeth Lewis, who was detained  
for twenty-two years in Blooming-  
ton before she was found to be sane.  
Another case was that of J. A. Chal-  
mer, who was adjudged insane in this  
state and afterwards wrote such  
valuable works as 'Fool's Years Be-  
hind the Bars of Bloomingdale' and  
'Lamey Law of the World.'"

## BANK USES FINGER PRINTS.

New York Institution Joins Others  
in Getting Unique Record of Depos-  
itors for Emergencies.  
(BY A. P. DAY WIRE TO THE TIMES.)  
NEW YORK, May 9.—The finger  
print system for the identification and  
location of depositors is rapidly  
being adopted by New York banks.  
The North Side Bank is the latest  
institution to add the finger print sys-  
tem regarding which Secretary Ar-  
thur E. Kirsch said today:  
"It is not the Bertillon system used  
by the police, but was devised by an  
Englishman named F. A. Plack, who  
for twenty years was employed by the  
British government at Singapore. It  
consists of the thumb we take the print  
of the index, middle and ring fingers  
of the right hand, middle and ring  
fingers of the left hand, and the  
thumb of the left hand. We provide blanks for our  
depositors upon which they write  
their signatures and leave their finger  
prints. In case of emergency as when  
the depositor is questioned, the sig-  
nature and the fingerprints of a sig-  
natory are taken across a depositor who  
objects to this."

## DR. SUGG DISAPPEARS.

Chicago Physician, Who Sued Myr-  
le Reed McCullough's Estate for  
Big Fee, Gives Up Office and Home.  
(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO, May 9.—[Exclusive Dis-  
patch.] Search was instituted today  
for the late Myrle Reed McCullough,  
physician of the late Myrle Reed Mc-  
Cullough, the novelist, who commit-  
ted suicide at her home, August 17,  
1910 and since that time has not  
been seen. He left no word as to  
his office and living apartments.  
Under the circumstances Dr. Sugg's  
friends are becoming concerned over  
his disappearance. He had been endeavor-  
ing to collect \$7500 as medical fees  
from the estate of Mrs. McCullough,  
the end was withdrawn because of  
insufficient evidence.

## SEVEN OFFICERS INDICTED.

Promoters of Potomac Rebuilding  
Company Charged With Misrep-  
resentation in the Sale of Stock.  
(BY A. P. NIGHT WIRE TO THE TIMES.)  
BALTIMORE, May 9.—A Federal  
grand jury today returned an indict-  
ment against seven officers of the  
Potomac Rebuilding Company, cap-  
ital of \$1,500,000, whose operations  
had been extended all over the  
country.  
The men indicted are: Michael P.  
Sullivan, Harry C. Hess, Louis F.  
Sullivan, Charles E. Ranger and Ed-  
ward R. Cooper, directors of the com-  
pany, and A. E. Moberg, stock sales-  
man. Representation in the sale of  
stock is charged.

# MILLIONS OF FOLKS USE ONLY CASCARETS

They Never Have Headache, Bilious-  
ness, Sluggish Liver or Bowels  
or a Sick, Sour Stomach.

No odds how bad your liver, stom-  
ach or bowels; how much your head  
aches, how miserable and uncomfort-  
able you are from constipation, indi-  
gestion, biliousness and sluggish in-  
testines—you always get the desired  
results with Cascarets and quickly,  
too.  
Don't let your stomach, liver and  
bowels make you miserable another  
moment; put an end to the headache,  
biliousness, dizziness, nervousness,  
sick, sour, gassy stomach, backache  
and all other distress; cleanse your  
inside organs of all the poison and  
effete matter which is producing the  
misery.  
Take a Cascaret now; don't wait  
until bedtime. In all the world there  
is no remedy like this. A 10-cent box  
means health, happiness and a clear  
head for months. No more days of  
gloom and distress if you will take a  
Cascaret now and then. All druggists  
sell Cascarets. Don't forget the chil-  
dren—their little insides need a good,  
gentle cleansing, too.

## Paternal. GIVE BABIES TO BACHELORS.

THREE CHICAGOANS TO ADOPT  
THE INFANTS.

Woman Doctor Who First Advo-  
cated that the Unmarried Make  
Themselves as Useful as They Are  
Ornamental Prevalis on Club Men  
to Try Her Plan.  
(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO, May 9.—[Exclusive Dis-  
patch.] At the National Congress of  
Mothers in St. Louis early in the  
spring, Dr. Lois Lindsay Wynekoop  
of Chicago said that all bachelors  
earning \$20 a week, or more, should  
take upon themselves the care of a  
baby. At the Illinois Congress of  
Mothers, in session at the Hotel Sher-  
man, she asserted that three of Chi-  
cago's bachelor colony had asked for  
babies. They will soon realize their  
wish, according to the Chicago woman  
physician. She refused, however, to  
disclose the names of the soon-to-  
be-adopted fathers.  
"Perhaps when they have found the  
plan the success I am sure it will be,  
they will consent to have their names  
made public," said Dr. Wynekoop.  
At the close of the session she told  
how it happened that some of the un-  
married men of Chicago had decided  
to care for babies.  
"A party of about a dozen fellows  
were having a dinner at the Univer-  
sity Club the same day that the re-  
ports of my statements in St. Louis  
came out in the Chicago papers," said  
Dr. Wynekoop. "All of these men were  
bachelors. They voted that one of  
their members, who has unlimited  
means, should adopt a baby."  
"This man is perfectly sincere and  
anxious to do so. He is about 35 years  
old, and will make a good father for  
a boy. He is going to fit up a house  
for a middle-aged relative, who is  
without means, and she will have the  
care of the child at first. I have picked  
out one of the boys and expect to  
have the others in two or three weeks."

## BARNS SERVE "YOUNG ONES."

Saloons in Kansas City Abandon  
"Schooners" as Result of Strike  
Among Brewery Workers.  
(BY A. P. NIGHT WIRE TO THE TIMES.)  
KANSAS CITY (Mo.), May 9.—As  
the brewers here today began the  
delivery of beer with non-union driv-  
ers it is expected that the union bar-  
tenders will be added to the number  
of men now on strike as the result  
of the walk-out of the brewery-wagon  
drivers.  
Another result of the strike is that  
many of the saloons have ceased serv-  
ing "schooners," or large glasses, and  
decided that "can" beer will not be  
sold until after the strike has become  
history.  
Brewery manufacturers say they are  
making much headway against the  
strike. On the other hand, strikers  
are confident of winning the fight.

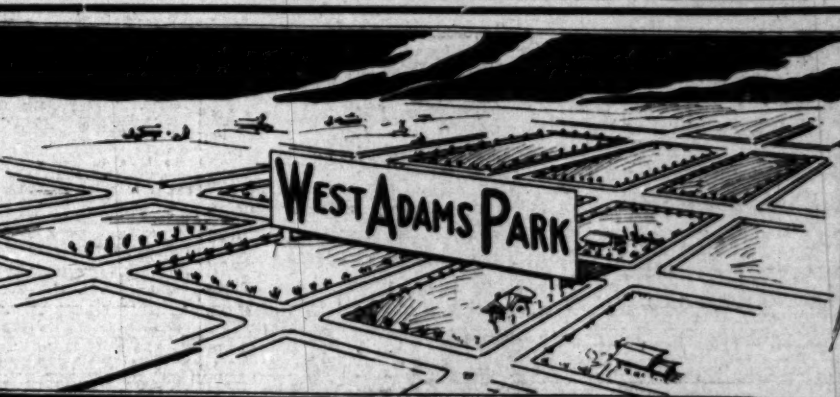

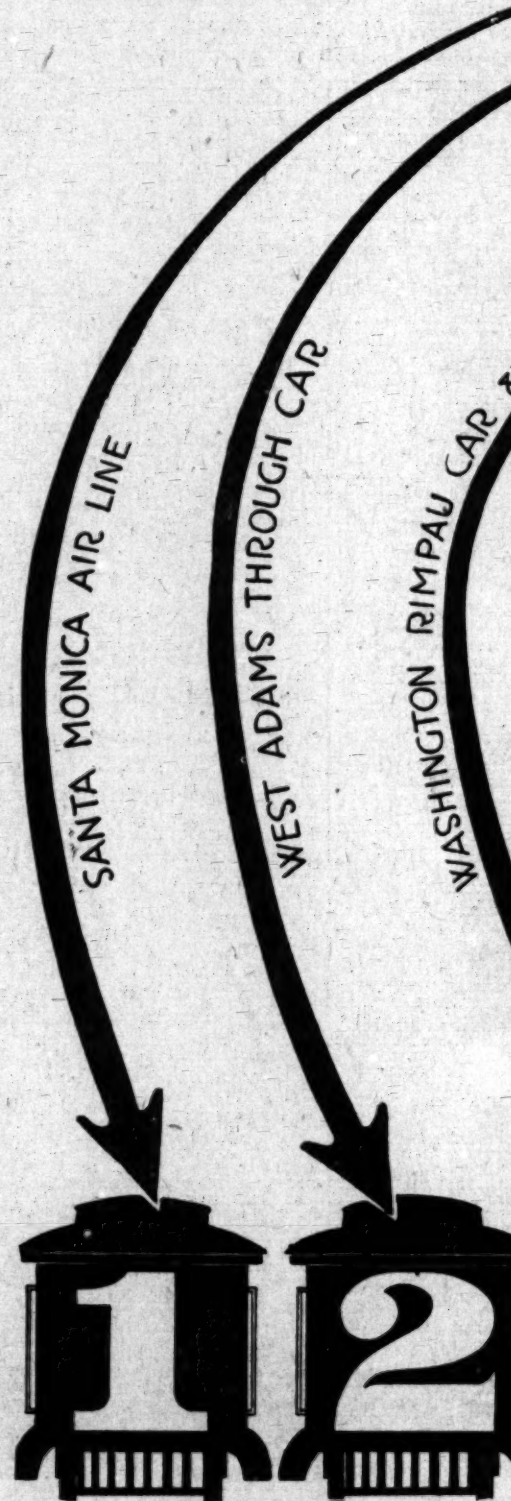

## MORMONS DRIVE HIM OFF.

Mexican Tax Collector Says They  
Resisted Payment and He Asks for  
Troops to Help Him.  
(BY DIRECT WIRE TO THE TIMES.)  
CANANEA (Mex.), May 9.—[Ex-  
clusive Dispatch.] Mormons in Colo-  
nia Morelos, on the border line of  
Sonora and Chihuahua, have resisted  
the collection of taxes on their prop-  
erty, according to Jose Randall, Fed-  
eral stamp collector for the district  
of Moctezuma, and he has asked the  
commander of this military zone for  
troops to enable him to levy on live  
stock and personal belongings of the  
Americans to settle the amounts  
which he says they owe the govern-  
ment. He alleges that they beat him  
and ran him out of the colony when  
he appeared to collect their taxes.  
The Mormons have sent a communi-  
cation to the chief civil officer of the  
district, declaring that the Mexican  
officer did not ask for their taxes, but  
that he appeared with deputies and  
began to round up their cattle and  
horses, to drive them off, and that  
they resisted. They say they thought  
him a rebel forager.

## FIRE CALLED INCENDIARY.

Two Alleged Attempts Are Made to  
Destroy Paint Plant as Result of  
Labor Troubles.  
(BY A. P. NIGHT WIRE TO THE TIMES.)  
HOQUIAM (Wash.), May 9.—Two  
alleged attempts to burn the business  
district of this city were made last  
night. A fire in the plant of the  
Pioneer Paint and Wall Paper Com-  
pany was traced directly to an in-  
cendiary plot to burn the store.  
Other paint stores were examined, and  
in the store of Stroh & Hackett a  
"plant" was discovered. This had not  
been fired, owing, it is believed, to  
the prompt discovery of the fire in  
the other establishment. In both

Pasadena.

Benefit Announced.

[Office of The Times, 12 S. Fair Oaks avenue.]

PASADENA, May 10.—The harmony of children's voices proved a greater attraction than was thought and it is estimated that twice as large as it is would scarcely have accommodated all who sought seats at the May Music Festival of the Pasadena public schools, held there yesterday afternoon. The children were small and the tones were not strong. Some of the refrains hardly reached the balcony, and when 600 of the youngsters raised their voices and chorused that was the climax of their entertainment they did not make such a very great noise. But there was a heart interest that held the attention of the audience and delighted them beyond all expectation.

The children came in parties from the different schools of the city, accompanied by their teachers. Some rode in automobile trucks, others on street cars, and those who had but a short distance to travel came on foot. They were dressed in their prettiest clothes and those of most classes carried flowers.

The concert opened with a chorus of sixth-grade children from the McKinley school. The classes from the various schools came on the stage in turn, each singing its song and then taking seats, until when the children of the last class, first-grade pupils of the Franklin-street school, sat down, there were 600 boys and girls on the stage.

Two of the classes that scored distinctive hits were the kindergarten children from the Franklin-street school with a song, "The Little Boat," and a string of wee sailor boys from the McKinley school, who sang and danced in flapping breeches.

The object of the entertainment was to demonstrate what is accomplished in musical instruction at the schools, and it was the intention of those who arranged the affair merely to make the door receipts pay expenses. However, there was so great an attendance that tickets that the performance will be repeated this afternoon, and a large sum will probably be realized to apply to the school music fund.

Miss Eleanor M. Bush, instructor in music in the public schools, her assistant, Miss George B. Wilson, and Herbert H. Barker, superintendent of the affair, W. H. Holland, principal of the Wilson school, attended to the business arrangements. J. Andrew Ewing, principal of the Lincoln-avenue school, marshaled the children, and they came upon the stage in proper order. And Miss Mable Pennock was the accompanist.

**YOUNG THIEVES.**

William Townsend of No. 445 South Hudson street, and Errol Roan of No. 429 El Molino avenue, were arrested last night and locked up in the City Jail on investigation as the result of the watchfulness of Miss Virginia Pease, principal of the Polytechnic Elementary School.

For some time past small thefts have been frequently committed at the school, and finally milk disappeared from cans in the lunchroom, and water was found in its place. Miss Pease had the janitor watch, and last night the two boys were caught as they entered the lunchroom with a skeleton key. They were held until the police arrived.

**WOMEN IN THE LEAD.**

There are probably now more women voters than men in Pasadena. According to Chief Deputy City Clerk Yale, the total registration figures are 14,821, and he believes that more than half of these names are names of women.

The registration list at the last election in 1911 numbered only 6000 voters. Fifteen hundred women registered last December when the question of liquor regulation in the city was brought up. There are 5321 names on the list of voters who registered between January and April 13 that never appeared there before.

**A SHOWER OF ROSES.**

The request of the Board of Trade that roses be taken to the rooms of the organization yesterday for use in decorating the vehicle that the Pasadena Tournament of Roses Association will enter in the Los Angeles parade today was so liberally responded to that the office was scarcely large enough to hold them all. Over 50,000 blossoms were received. Some are perfect specimens. They are red, white, pink and yellow, and come from every quarter of the city.

**ARE BUSY WITH PLANS.**

The society women of the city who are arranging the County Fair, to take place at Carmelita Playgrounds tomorrow for the benefit of the George Junior Republic, at Chino, are sparing no pains to make the affair a tremendous success. They have been rehearsing for the party they are to take and have prepared many toothsome delicacies to sell in the booths. They have also planned special attractions for young and old, and declare there will be no dull moments when once the show is opened.

**POLICEMAN IS REMEMBERED.**

A note and a picture that came to Chief of Police Wood yesterday through the mail is evidence of one "Sam" when a policeman, whose lot of Shriners' Day was all work and no enjoyment, was remembered.

The note is from George R. Hall of Waterville, Me. He writes that while at Busch Gardens he took a picture of a policeman on duty who impressed him with his politeness and kindly patience in handling the crowd and that he dedicates the officer to have it, but does not know his name.

The photograph was taken and recognized as the likeness of Patrolman H. R. Collins.

**FIGURES ARE RAISED.**

No more rainfall yesterday, although the day was cloudy. The slight showers of the last two days raised the season's figures of an inch, making 17.66 inches for the season. The precipitation at the corresponding time last year was 24.07 inches.

in Prices.

LONG BEACH, May 9.—John F. Craig, vice-president of the ship plant which bears his name, returned today from San Francisco with a signed and sealed contract to construct for the Hammond Lumber Company a new steel steamship, to cost \$500,000. The shipyard work ahead for over a year on contracts totaling approximately \$1,000,000.

The new steamer will be the largest yet built by the Craig, being 305 feet long, forty-four foot beam and twenty-two foot mold depth and will have a capacity of 2,500,000 feet of lumber. The vessel is to be equipped with triple expansion engines of 2000 horse power and also the latest and improved devices for handling cargoes. Because of the work ahead the ship company has been given a year's extension of time to launch the steamer. The Craig built the General Hubbard for the Hammonds and their satisfaction with the construction led to the present contract, which was higher than a bid by a Seattle firm.

Now on the ways almost ready for launching is the 300-foot Camino, the second vessel built by the Western Steam Navigation Company, costing \$200,000. In a less finished condition is the 250-foot steamer of the Long Beach Navigation Company, costing \$175,000.

To follow this vessel on the ways is the \$250,000 steamship, the Dollar, a contract for which was signed May 8. The Dollar is to be built at the same time. Orders for material have been placed with the local suppliers and the berths will be ready for use in a few days. The shipyard is now busy with the employment of several hundred men in all departments of the shipbuilding trade.

Other ships built by the Craig have been the Navajo, the General Hubbard, the Virgil Bogue and the steel hull built for the Western Marine Dredging Company.

**MAN MISSING.**

Acting Chief of Police Fred Kutz today sent out cards asking for information of R. T. Livermore, who is missing from home. Livermore is 47 years of age, five feet, seven inches tall, weighs 160 pounds and has dark brown hair, light brown mustache, blue eyes and has several dark brown moles on his body.

When he left home he was attired in a dark blue suit, a white shirt and a dark tie. He was last seen on the left hand. Livermore was ill when he disappeared and may be located in a hospital or in a sanatorium.

**NEWS BRIEFS.**

The Chamber of Commerce will appear before the Council next Monday night and ask that body to prepare conditions upon which the Salt Lake can connect with the municipal tracks on the city docks. The city will be asked to grant the Salt Lake right of way on First and "Water" streets on condition that the tracks laid may be purchased by the city at cost whenever the municipality so decides.

The new Chief of Police, A. B. Austin, made his first arrest today when he arrested Sgt. Kutz in the capture of Melville Bowles and Earl L. Bucheln, two runaway boys from Santa Ana. The boys have been here for several days, but the lads did not show up until this morning, when they were taken to a local restaurant. The Sheriff of Orange County came after them this evening.

All of the local Shriners were overwhelmed with thanks and congratulations today for the manner of the celebration given by the city yesterday. A resume of the affair shows that 5000 box lunches were distributed and 6000 cups of coffee. Twelve hundred of the visitors passed through the bath-house turnstiles and 600 took canoe rides on the launches. The bath-house was crowded and at other beaches in the county and prices have advanced nearly 100 percent to wholesalers. Old-time fishermen say that the fishery is better than it has been for many years, but the netting operations of the day have moved up the coast and are due at Redondo tomorrow.

**RATIFY THE CARNIVAL PLANS.**

Monrovia Merchants' Association. Hotel Banquet and Hears Eloquent Angelinos Discuss County Matters.

MONROVIA, May 9.—The banquet of the Merchants' Association in "Leven" Oaks Hotel last night was in a measure a ratification of carnival plans, and formed a pleasant interlude in the sleepless work necessary to the success of the municipal celebration on May 16, 17 and 18. Plates were laid for 100. Guests of honor were Judge and Mrs. Paul J. McCormick and Hon. Leslie R. Hewitt of Los Angeles.

The former, in a conversational manner that proved an easy medium of approach to topics of moment, discussed from the viewpoint of the people the question of the ratification of organized municipal effort. Asserting that Los Angeles was irrepressible and effective "booster," the judge, perhaps unconsciously, illustrated his claim by paying some very handsome compliments to the Los Angeles Chamber of Commerce and affiliated organizations. He also paid glowing tribute to the late Stephen M. White, whose name was greeted with a stirring round of applause.

The gist of Judge McCormick's address was that definite purposes forwarded by determined co-operation of all interests, the implied motto being "Go thou and do likewise."

**PLAYGROUNDS FOR CHILDREN AND ANNEXTION TWO QUESTIONS WHICH NOW AGITATE THE SOUTH PASADENA MIND.**

SOUTH PASADENA, May 9.—A meeting was held by the Lincoln Park Improvement Association last evening. It was the largest one in the history of the league, and aside from the business transacted, keen discussions of two problems which are now interesting South Pasadena most, were brought up. These questions were a proposed children's playground for the summer months, and a resolution instructing the president, Fred H. Treen, to appoint a working committee to water, sewers, and annexation to Los Angeles, to attend all business meetings of the Owens River committee in Los Angeles, and to learn upon what terms a water supply to relieve the present need can be obtained.

The same committee is also to attend the inter-city conference on water, sewage, and sewer solution of the sewer and water problem can be offered there. **BOY BABIES SCARCE.**  
Births in Imperial Valley Show that Girls Outnumber the Other Sex More Than Five to One.  
**EL CENTRO, May 9.**—There has been a conspicuous dearth of boy babies born in El Centro in the past few months. Since this year 1912 began, the stark has brought but three boys, while at the same time sixteen dainty girl babies have arrived in as many homes in this city. These figures appear in the report of County Recorder Norton, who is also registrar of birth.

**TOWNSHIP SOLD.**  
A deal has been made by the Seelye Land Company, owners of the Seelye township, whereby the company will take over the Mobile townsite and adjacent lands, which adjoin Seelye on the northeast. The town of Mobile will be abandoned. An extensive subdivision project has been launched, which, it is believed, will bring in a large number of new settlers to the country tributary to the Mobile townsite. The company, Compton, the owners and promoters of Seelye, are understood to have associated with them in this deal some of the largest capitalists, who will assist in making the project a success.

**RAIN A NOVELTY.**  
The novelty of a May rain was experienced in Imperial Valley today. Less than 10 of an inch has fallen in El Centro since early this morning, but in some parts of the valley the precipitation has been considerably greater.

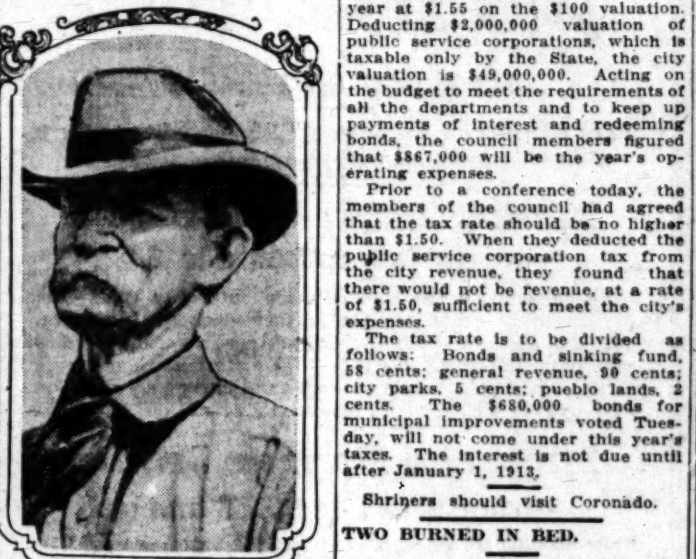

**LIQUOR PROBLEMS.**  
The town of Imperial, which went "wet" at the recent city election, is in a quandary as to how to handle the liquor situation. Incorporated in the deed of every lot in the original townsite is a liquor prohibition clause, providing that if any intoxicants are sold or disposed of in any manner on the property, the lot shall revert to the original owner. At first it was believed that this clause might be annulled, but this idea has now been given up.

Don't Pull Out Gray Hairs. SAGE TEA RESTORES COLOR

"Pull out one gray hair and a dozen will take its place," is an old saying, which is, to a great extent, true. If no steps are taken to stop the cause, When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

## Kranich & Bach

INSTRUMENTS

Famous for Their "Harp-Like" Tone

The beautiful tonal quality of Kranich & Bach instruments has placed this famous old make high in the esteem of discriminating musicians. The wonderful tonal results achieved are due to the personal efforts of the Kranich & Bach family, who supervise every detail of construction—in upright, grand and player alike. Thus their product is a work of art, and not merely a commercial undertaking.

Uprights, Grands and Players—\$525 Up—Terms \$10 and Up Monthly

Kranich & Bach Uprights have the finest principle of stringing and sound board used in any upright piano. This accounts for their wonderful "harp-like" tone. The Grands have the Isotonic Pedal—a feature especially appreciated by musicians. The Players are built complete by this company.

## HOSTS CHEER DRILLING OF THE RAINBOW ARMY.

Twenty Thousand People Roar Applause as Fifty-two Arab Patrols, the Flower of Shrinedom, Pass in Intricate Review Before Their Imperial Potentate on the Famous "Lucky" Baldwin Race Course.

AN EARTHEN bowl, rimmed in by mountains purple in their cloak of light haze, was the setting yesterday of a beautiful spectacle in which fifty-two Shrine patrols went through intricate maneuvers before the Imperial Potentate of the order and a crowd numbering nearly 20,000 persons.

The great grand stand of the old Santa Anita race track, made famous by "Lucky" Baldwin, held the big crowd which gathered to watch the drilling of the crack Shrine drill teams of the United States. Tumultuous cheers greeted the silk and velvet-clad men as they marched and counter-marched before the reviewing stand. Each patrol had its admirers and they voiced their appreciation vociferously whenever their favorites executed a particularly intricate maneuver.

## FLOWER GARDEN ALL THE CITY.

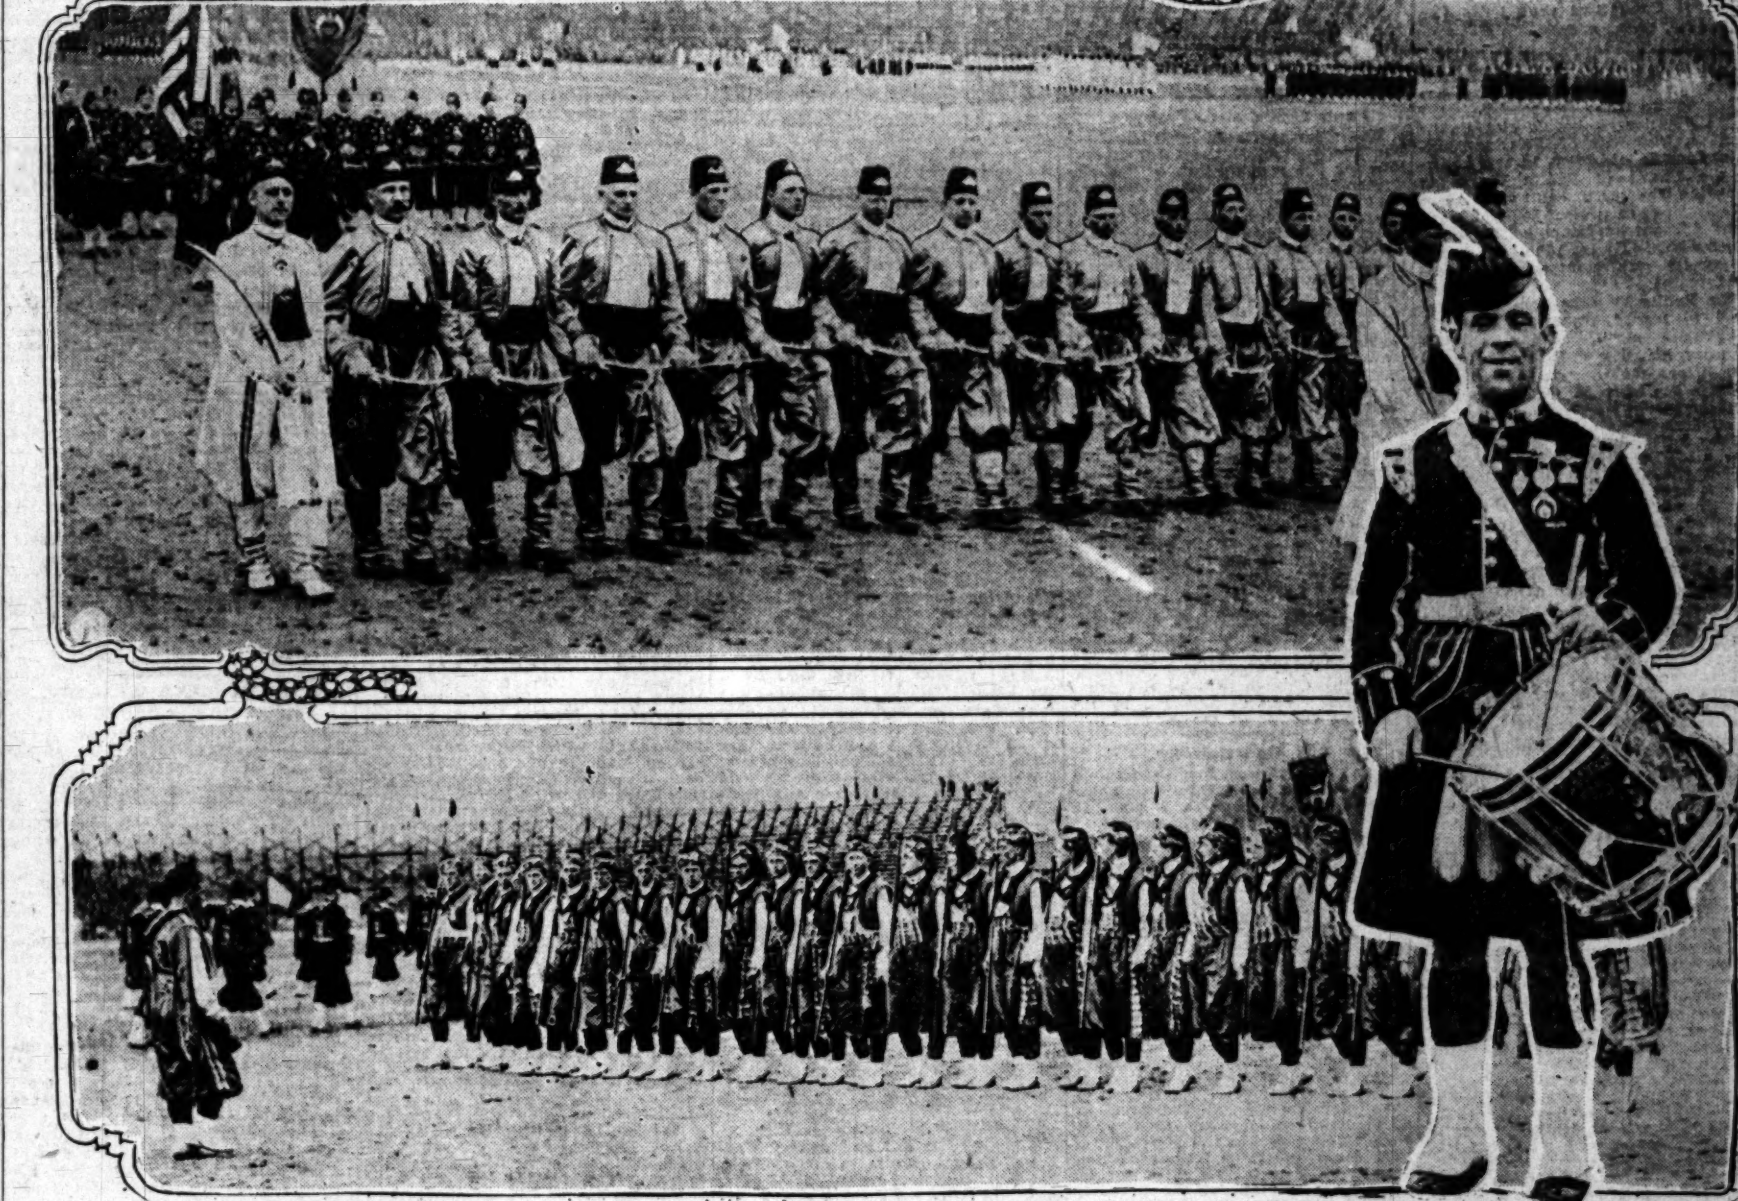

Superb Spectacle to Crown Week's Pageantry.

Floral - Allegorical Parade the Final Effort.

Edens Depleted of Tons of Fairest Blossoms.

The crowning event of a week of spectacular pageantry will come at 10 o'clock this morning when Southern California herself will don her most beautiful raiment and present La Fiesta de las Flores—the Fete of the Flowers.

All that has gone before during the present Shrine week has been gorgeous and has taxed the eye with brilliance, but it has been the work of artifice, though wonderful and impressive. This morning the land of the afternoon will invest herself with the garments of nature's own making and parade the principal thorough-

Some of the Best-Drilled Men in America Passing in Review Before Their Imperial Potentate.

Fifty-two Arab Patrols, the very cream of the world's Shrinedom, participated in joint and individual drills of amazing beauty and intricacy on the old Santa Anita race-course, made famous by "Lucky" Baldwin, yesterday. In the center picture the ensemble is shown of the drill teams on the field. The patrol in the foreground is that of Aad, Duluth. The arrow in the top picture indicates Imperial Potentate Cunningham, general master of the review.

They carried 15,000 people to the grounds, while at least 4,000 others came by automobile. The stands were gorgeous with color, the bright hats and brilliant dresses of the women rivaled even the rainbow uniforms of the marching Shriners. One of the events of the afternoon was the singing of the Moolah Lodge choir of St. Louis. Dressed entirely in white and wearing low-cut shoes and red silk hose, the Moolah choir created a sensation. They sang songs praising St. Louis and their own Shrine patrol and California and her people.

LOVING CUP REWARDS. The drill between the lodges was not competitive, as each of the patrols was presented with a silver loving cup suitably inscribed. The honors of the day, if any decision was to be given, lay between the Al Malakiah patrol of Los Angeles, Islam patrol of San Francisco, Aloha of Honolulu, Murat of Indianapolis, Moolah of St. Louis and Zuhrah of Minneapolis. All of these patrols were beautifully uniformed and were exceedingly well drilled. Islam brought the crowd to its feet several times by its astonishing performances.

The review opened with the welcoming strains of many bands. The different patrols were grouped in three distinct bodies at the far edge of the field, under the direction of Brig.-Gen. Robert Wankowski. As each patrol marched across the big field and began the drill in front of the reviewing stand the crowd shouted itself hoarse. Among the first drillers was Al Malakiah of Los Angeles and San Diego. Al Malakiah was roundly cheered by the thousands of her friends present in the stands. With new uniforms and spick-and-span accoutrements, the patrol was at its best.

When Moolah marched before the stand the St. Louis choir stood up and sang songs of praise in its honor. The choir consisted of eighteen voices and its songs were so catchy that the entire stands were humming the chorus of their offerings before the afternoon was done. Minneapolis, brilliant in green and yellow uniforms, brought forth rounds of applause by their beautiful drills. They marched and counter-marched in an amazing number of formations and when lined up before Imperial Potentate Treat presented a front like that of a wall.

STRAW HAT FOR HIM. Fast Imperial Potentate Treat was the only Shriner on the ground who was unadorned by a fez. He chose to wear a straw hat, one, by the way, which he purchased in Los Angeles and which he admits he cannot wear in his home in Fargo, S. D., for several weeks yet. In the box with him was Imperial Potentate Cunningham, who wore his new honor with grace and dignity.

When Arrarat of Kansas City marched across the field with Noble Emerson leading the famous hound dog of Missouri, the St. Louis choir

showed that it had no jealous taint by greeting it with vociferous song in bold black type the date of the Panama exposition. These umbrellas were much in evidence and when the official photographers began taking the pictures of the stands, they were raised so as to show the advertisements for the exposition.

HERE IS THE PROGRAMME FOR THE SHRINE VISITORS TODAY.

THIS IS La Fiesta Day—Los Angeles Day—day of the Midsummer Floral and Allegorical Parade, the greatest day pageant of Shrine week. It will be opened at 9 o'clock a.m. by a grand concert of the massed patrol bands at the Federal Building, North Main and North Spring streets. Following the concert the patrols will march in divisions through the downtown streets.

The floral and allegorical parade will form at 10 o'clock at Pico street and Grand avenue under the direction of Gen. Robert Wankowski, grand marshal. In six divisions, representing respectively Southern California flora (parade of decorated vehicles, for the best of which valuable prizes are offered), equestrian, universality of man pageant, fraternal orders pageant (including the patrols), cities of the West pageant, Los Angeles civic pageant. The route is: North on Grand to Eighth, east to Hill, south to Ninth, east to Broadway, north to First, east to Spring, south to Eighth, east to Main, north to Second.

A Shrine vaudeville matinee for the amusement of the orphan children of the city will be given at the Auditorium at 2 o'clock in the afternoon, in addition to the regular Shrine performance in the evening.

Lu Lu Temple of Philadelphia will be the guests of the city of Alhambra in the afternoon. Automobiles will be supplied for the trip of the invited guests. The public may witness the festivities, reaching the place by the Alhambra-San Gabriel cars from the Pacific Electric station. The programme will begin at 4 o'clock p.m.

The grand Shrine ball, the principal social event of the week, will be held at Shrine Auditorium, on West Jefferson street, at 8 o'clock p.m.

## TIPS MUST GO, WAR DECLARED.

COMMERCIAL TRAVELERS HERE IN FIGHTING TOGS.

Nine-foot Sheets, Abolition of Roller Towels and Lower Livery Rates Also Demanded—Banquet, Smoker and Grand Ball Follow Business Sessions.

"Down with the tip, to the ash can with the roller towel, and a nine-foot sheet for all," is the battle slogan which the United Commercial Travelers' Grand Council of California have adopted for the convention which will open in this city this morning.

It is a State convocation and Mammoth Hall will be used for the business sessions, which will run today and tomorrow. The councils of the order which will be represented, include San Francisco, (2), Fresno, San Diego, Phoenix, Oakland, Sacramento and Los Angeles. About a thousand delegates and members of the drummers' organization are expected to be on hand.

The local council has a membership of 585 and has prepared all the plans of entertainment which will start with a smoker in Hamburger Hall this evening at 8 o'clock. Tomorrow evening the hall will be the scene of the banquet and at 9 o'clock the grand ball will take place at the Goldberg-Rosley Hall.

ates for the delight of the thousands of strangers within our gates.

La Fiesta de las Flores is peculiarly of Los Angeles and cannot be seen anywhere else on earth. There is a tang of the Southland in its very conception that send a quiver of appreciation through every loyal Angeleno. It has not been a "periodic" fiesta, but has been reserved for special occasions, such as this. It is not an annual affair but is only given when Los Angeles feels that she has been challenged to show her best.

The Shriners, with their gorgeous patrols, their bands, pageants and numbers seemed to be that challenge, and La Fiesta de las Flores this morning is the answer.

Condensed, the parade this morning will consist of six divisions. First will come the decorated carriages, automobiles and floats, then the Los Angeles Fire Department, then the equestrians, then eight floats representing the University of Man and one float of the Japanese Association, then floats representing the fraternal organizations of Los Angeles, then the "cities of the West," in which a dozen or more floats will move.

TONS OF FLOWERS. But these dry facts do not tell the story. The tons of flowers which will be used in the decorations of the floats would utterly deplete every garden, conservatory and field of any other city but Los Angeles. Here they will be gathered in wagon-loads, but where they were taken from no one could tell.

Nothing but fresh flowers are to be used. The artificial flowers, no matter how beautiful, will be discarded and as nature will be the watchword.

The parade is to form on the four squares bounded by Eleventh and Fourteenth, Hope and Olive streets, with the main body resting on Grand avenue, between these four streets.

So innumerable are the units in the formation of the mighty spectacle that the first floats will gather at 9 o'clock in the morning. From that

# SOCIETY

Mrs. Fred O. Johnson, one of the hospitable young hostesses, who has been working this week for the pleasure of the visiting Shriners.

THERE ARE a number of interesting weddings scheduled for this month and next and the days to come will be filled with many delightful pre-nuptial functions.

Miss Marjorie Bastable, daughter of Mr. and Mrs. James Bastable of Western avenue, who is to wed Jack Adams, June 5, will be the motif for several teas and dinners, as well as attractive Miss Marjorie June Bastable, who has chosen May 14 for her wedding to young Greene. Both brides-elect are members of the same social set and at many of the parties they will share honors.

Miss Elizabeth Rose Richards, daughter of Mrs. Charles Richards of No. 501 West Adams street, whose engagement to Dr. William Nicholas Horton was recently announced at a large affair given at Hotel Alexandria, will be another young bride who will claim attention, and her wedding will be solemnized in June.

Country Club Society. Mrs. Ray Smith entertained at a charming luncheon party at the Los Angeles Country Club yesterday afternoon, when her guests included Mrs. William May Garland, Mrs. Wallace, Mrs. Chandler, Mrs. Russell Taylor, Mrs. Farquhar, Mrs. Suro and Mrs. Sidney Wills.

The Annandale Country Club was also the scene of several informal affairs. E. T. Ripley of the Santa Fe entertained at a small party on Wednesday, and J. Hoyt Smith had some eastern friends out to golf and lunch. Mrs. F. O. Lindeman was another hostess and C. F. Scott had a small luncheon on Thursday.

Mr. Scott will entertain again on Saturday, when the affair will be in honor of his mother and his sister, Mrs. Scott Brown.

Miss M. M. Gregg has booked May 14 for her daughter's wedding, which makes nearly a dozen large affairs due at this much-patronized clubhouse.

Dr. and Mrs. Anderson are to give a small luncheon party at the Los Angeles Club on Saturday, which is expected to be a scene of great animation, owing to the fact that the club championship for golf will be played that day. But hostesses have learned that it is becoming increasingly difficult to get men for their country club entertainments on Saturdays, for after a round of golf it is their invariable habit to camp out in the men's grill-room, in their golfing negligee and play all their strokes over again until late into the night. Any social affairs arranged for Saturday will therefore be exclusively feminine.

Riverside Items. Two attractive social entertainments were held early in the week at the Victoria Golf Club, in both of which golf, not auction bridge, was the raison d'être.

On Monday evening Mr. and Mrs. Eugene Howard Dab, the latter facile in many athletic sports, gave a golf dinner party presenting their winning guests with several delectable trophies. The afternoon was devoted to golf and the day wound up with a merry dinner party at the clubhouse.

Miss Helen Newell of Rochester, N. Y., niece of Mr. and Mrs. Charles Chase, with whom she has been visiting for a few months, also gave a luncheon party, prior to an afternoon's golf. Her guest of honor was Miss Helen Achilles of New Haven, who is paying Riverside a visit on her way to Honolulu, and the guests included many of Riverside's regulars.

Dr. and Mrs. W. A. Hunter, were the hosts at quite a large affair on Monday evening, a hundred guests responding to their invitation. It was quite a novel gathering, each of the guests attending as a "nature faker" in odd costume representing the animal kingdom or floral culture. Thus, centaurs, serpents, sweet peas, and roses found themselves in dangerous proximity, and the fun was fast and furious.

## SUPERVISORS IN QUANDARY.

If Officials Allow Registration Bills, Auditor Cannot Pay Them, According to Legal Advice.

Though a court decision has indicated that the Supervisors may pay the salaries of 93 registration deputies as an emergency measure, it is not believed probable that the board will approve the claims amounting to approximately \$4000, when it meets Monday. Deputy District Attorney Hanna has advised the board that it cannot legally pay the bills, and even if they are approved, the Auditor will not pay, owing to several legal opinions he has received which state he will be held personally liable for any payment of the county's money to the registration deputies.

It has also been held by some of the legal talent employed on the tangle of the County Clerk's case, that the situation months ago and should have made his plans then instead of hiring the deputies and trusting to luck to have the claims honored. Le-lande lays the blame upon the Legislature, who ignored the bill which was presented at the special session, which would have provided for the deficiency which was then foreseen.

## LAND SHOW PROFITABLE.

Report of Secretary to Los Angeles Realty Board Gives Substantial Earnings for Enterprise.

The land show business is profitable, according to a statement by the secretary to the Los Angeles Realty Board at a meeting at Levy's yesterday noon. The secretary of the board, who was manager of the Land Show in March, rendered his final account.

According to these figures, the Land Show cost \$10,000, and after all the bills had been paid, \$5,138.81 was deposited in the bank to the credit of the board's account, the profit realized.

Several leading members of the board will attend the convention of the National Association of Real Estate Exchanges in Louisville, June 12-21. A proposition to charter two Pullman sleepers and send a delegation of forty or fifty to be agitated, it is announced that W. M. Garland, Charles G. Andrews, Lawrence B. Burck, W. Ross Campbell and W. W. Mines will be among the delegates.

## REFUSES TO PAY BILLS.

Board of Education Passes the Lighting Charges for Election Day Up to the City.

The Building Committee of the Board of Education has authorized the secretary to furnish the City Clerk with the names of the janitors of the various school buildings to be used as polling places on May 25, and to notify the City Clerk that the city will have to furnish its own lighting. Vacation school was ordered opened at the Normandie-avenue school, to offer school gardening, stoyd work.

## Weddings and Bride-Elect.

Miss Georgia Stewart of Riverside sprang a surprise on her friends by slipping off to San Francisco on Sunday morning and wiring the information to her friends in Los Angeles. She is to be married to Peter Llewellyn of Seattle, Wash., on Monday. The young couple will remain in the city for the present.

Mr. and Mrs. Paul Moser returned from their honeymoon on Sunday evening and were given a merry surprise party at their Vine-street house. Miss Ethel Lyman Smith, one of the numerous brides-elect of Riverside, received yet another compliment when Mrs. C. L. Nye entertained on her behalf on Monday evening. Some thirty guests assembled and the decorations were formed of roses every where. Progressive bridge formed the raison d'être of the party in the afternoon and a large number of guests were added to the company for 5 o'clock tea.

Miss Smith is to leave for Westfield, Mass., on the 14th, where she will become the bride of Maynard Ralph Haines, U.S.A., on June 29th.

Yet another wedding was that of Miss Judith Johnson, who was married to Arley Findley of Bakersfield on Sunday. Her sister, Mrs. McKelrick, played hostess for the occasion and her home was the scene of the pretty ceremony, the Rev. F. L. Carrier officiating.

Miss Mabel Rose, bride-to-be, was the recipient of a jolly surprise party on Saturday evening, when all her girl friends pounced down upon her with all the flowers for decorating the house for the party. She was finally presented with a droll book of cooking recipes of a distinctly humorous order, besides many gifts for the bride.

Those present were the Misses Randolph Mitchell, Elizabeth Cooley, Elizabeth Smith, Frances Seaton, Iris Ramabottom, Beulah and Alline Kirkpatrick, Leonel Sherman, Lillian Smith, William Smith, Frances, Jean McDougall, Irma Markell, Nellie Ross, and Elsie and Lorna De-vana.

Another bride and groom are Mr. and Mrs. J. E. Stillman, who have just returned from their honeymoon, and who were treated to a surprise party at their home on California avenue. Their friends presented them with a chest of silver and an artistic chair.

A quiet wedding was that of Miss Grace Merrill and Austin Wiles. They were married on Sunday morning after the usual service.

## THE P.E.O. SOCIETY.

Consequently Darrow Defense May Ask for Continuance Until the All-Ing Thing Improves.

Because one of the counsel for Clarence Darrow, Rogers, is suffering from a sore throat, word was received at the District Attorney's office yesterday that the defense might ask for a continuance when the case is called in Judge Hutton's court Wednesday morning. District Attorney Frederick denied that the defense made any overtures looking to a compromise. From the first, Capt. Fredrick has stood for "unconditional surrender" and he will not agree to any disposition of the case other than a verdict of the jury or by a plea of guilty on the part of the defense. Inasmuch as it will take two weeks to secure a jury and there are four or five lawyers associated with the defense, the State is at a loss to understand why Attorney Rogers's sore throat would be considered sufficient grounds for continuance. However, if the postponement is requested Wednesday, the District Attorney's office will not oppose it.

## Sunday Excursion.

To Elsinore, via Santa Fe, May 12, 2:25 p.m. round trip, limited to date of sale. Leave Los Angeles 9:00 a.m., returning leave Elsinore 4:45 p.m.

## COOKERY AND SEWING, AND THE PLAY-GROUND COMMISSION WAS GRANTED PERMISSION TO USE THE PLAYGROUNDS THERE DURING VACATION.

Hereafter architects of school buildings are to be paid a commission of 1/2 per cent of the total contract price, exclusive of heating and ventilation, to be their remuneration for furnishing ten sets of plans and specifications and for inspecting the work sufficiently to issue certificates to the contractors for the several demands when due. This commission is to be paid as follows: 3 per cent when the contract for the building has been awarded and one-half of 1 per cent when the building is completed and accepted.

## MARRIED TOO HASTILY.

Divorce Proceedings Incomplete So Husband Finds Himself in Grip of Law—Happy Solution.

Lack of knowledge of one of the fine points of the California Code might have cost Alvin L. Millard dear had it not been for the kindness of Justice Forbes, who helped the young man out of a bad dilemma. Millard was separated from his first wife and Justice Forbes, who helped the young man out of a bad dilemma. Millard was separated from his first wife and Justice Forbes, who helped the young man out of a bad dilemma. Millard was separated from his first wife and Justice Forbes, who helped the young man out of a bad dilemma.

## FEES AND FINES COLLECTED.

Trial Justices File Reports Showing More Trials Than Marriages. Heavy Civil Business.

Reports of the township justices' courts have been made by T. W. Bromley, chief clerk. For the past year 8792 cases were filed there were 1909 trials and 1158 marriages. The receipts from civil business totaled \$23,540. In the criminal side of the office 2033 cases were filed and fines totaling \$13,625 were collected. The total fees and fines amounted to \$37,165.

## Sunday Excursion.

councillor, of San Francisco; Claude Needham, junior councillor, of San Diego; Oscar Bolderman, secretary, of San Francisco; E. N. Clinebarger, secretary, of San Francisco; H. L. Judell, chaplain, of San Francisco; W. P. Baker, pastor, of Los Angeles; Ben Headland of Los Angeles, sentinal. The office of treasurer has been vacant since the death of J. Sunderland last January. He was a Los Angeles traveler.

The convention is called, primarily, for the purpose of discussing the good of the order and its insurance. In addition, many questions which are of general interest, particularly to the public which travels, will be taken up. Foremost will be the tip question, an evil which the traveling men of the United States are trying to abolish entirely.

The use of roller towels in small hotels of little towns, as against individual towels, will be taken up. Exorbitant livery charges, those which are really holdups according to drummers who cover the country, will be given a job. Agitation for nine-foot bed sheets will be pushed and a committee will be appointed to take up the question with the railroads of allowing drummers to ride in freight coaches from one small place to another, particularly where the fast trains do not stop and local trains are run but once or twice a day.

## Good for Camp as well as Kitchen.

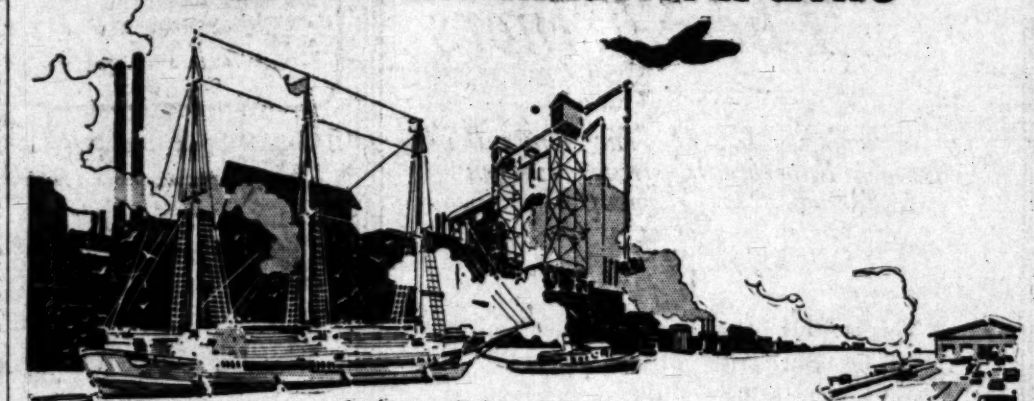

Stewart Edward White, the noted novelist, in his recent book, "The Mountaintop," gives some advice on page 181 which will interest every housewife. He writes:

"Even if you do not intend to wash dishes, bring along some Gold Dust. It is much simpler in getting at odd corners of obstinate kettles than any soap. All you have to do is to boil some of it in that kettle and the utensil is tamed at once."

Most housewives know already the value of Gold Dust for washing dishes and cleaning pots and pans, and, in fact, for all household cleaning.

## WHIFFS FROM THE OLD SPORT BIPE

There are only a couple of middle-  
weights on the programme today.  
Uncle Tom, wit these here tears we  
thank you for your mercy.

**Lemon Shipments.**  
Bombardier Wells, the British  
heavyweight, will sail for the United  
States, May 11. He will come di-  
rectly to this coast for his match with  
Al Palmer, July 4. If this thing is  
going to continue, Fourth of July  
should be discontinued.

**Judge Pleaded.**  
Chief Justice J. H. Cartwright of the  
Supreme Court of Illinois had the  
unique experience yesterday of plead-  
ing his own case before the court of  
appeals of the American Trotting As-  
sociation. He was suspended for non-  
payment of entrance money, for the  
more citation in a \$5000 stake race.

**Not So Wore.**  
Seems like Casey is a good umpire  
after all. Don't take any back talk  
from the players, and appears to  
know most of the rules. I say the  
majority of them for no one knows  
all of these things, even those that  
make them. If some of the fans knew  
a few of the rules there wouldn't be  
so much foolish roasting of players  
and ump.

**Behave, Tommy.**  
Tommy Burns, writing from Cal-  
gary, declares that he has discovered  
another new white hope of some kind.  
Tommy might just as easily contribute  
his mite to the safety of nations by  
having some one discover Calvary.  
Or, at least, tell us where it is and  
why it is.

**Gotch, Please Write.**  
"Pears to me like as wrestlin' would  
be a fine sport if there was nothin' else  
to look at."

**Going Some, Eh?**  
Strikes me that from the way some  
of the big league teams are playing  
these days that the Coast League  
might transport itself back there some  
day and win two or three big league  
pennants. If they are any better than  
we are out here, the only way you  
can make us believe it is to refuse to  
publish their box scores.

**Joe Is Coming.**  
Joe Rivers is nearing Denver,  
where he is slated for an exhibition  
with Esbe Davis. After seeing the  
lights in the Rocky Mountain center  
of the triumvirate—Rivers, Levy and  
Rooney—will hit the rails for Los  
Angeles, where Joe will go on at one  
local theaters and then take it easy  
(ill) it is time to start training for his  
flyer at the world's lightweight belt,  
July 4.

**White's Weight.**  
This is the first question which is wor-  
rying the fight fans about the battle  
this afternoon between Conley and  
White. It is, how much weight will  
White have to chop off in the next  
twenty-four hours to get 125 at 11  
a.m.? Yesterday the little fellow was  
only a short way from the mark, but  
will have to be careful till this morn-  
ing, as he is right on edge and too  
much drying out will take the pep  
out of his style. Conley thinks for  
this reason he will be weak in the  
fight, but if White stays "status quo"  
he will be only a little more savage  
with the loss of that extra sixteen  
ounces.

**Student Coaching.**  
Student coaching will be on trial  
next football season at the University  
of Southern California and many are  
anxiously awaiting the outcome of the  
experiment. Clarence Manning is the  
man who will take up the load and  
if ever there was a better fitted per-  
son for the place we want to know.  
He has had six years of American  
rugby and knows what the men need  
in the South to win games. The  
idea of coaching was not a success at  
Occidental several years ago, accord-  
ing to many of the doers, but the  
Tigers were on the down grade at  
the time and it was not all the fault  
of the system.

**Rugby Booming.**  
If Oxy and Pomona come into the  
Rugby field this fall, it will only be  
a matter of a few years till we are  
giving Stanford and Berkeley all they  
want in northern and southern inter-  
collegiate Rugby football. Look what  
U.S.C. did last season without any  
local college competition, and then  
think of the result when the old ri-  
valry is renewed.

**Big League—W-e-l-l.**  
Hap Hogen of the Tigers is trying  
to get a big league pitcher, but I  
don't fancy this scheme. Hap is  
doing pretty well as it is and further-  
more his league flingers are generally  
dangerous things to have around. We  
had one here some years ago that  
tried to drink at the beer in town.

**Going Down.**  
Looks like Cravath is slated for  
the minors again. He is out of the  
Philadelphia line-up and just the  
other day was put in to bat for some  
fellow in the ninth inning. This doesn't  
look good.

**Reulbach Losing.**  
Reulbach seems to be losing games  
for Frank Chance again. Frank  
Schultz says he is one of the best  
morning and night pitchers in the  
business, but doesn't seem to be able  
to win many games in the afternoons.

## KANE'S TERRIFIC HOMER IN SEVENTH DEFEATS OAKS.

Clout Over Left Fence Drives in Additional Run and  
Makes Tiger Victory Sure—Hitt Heaves Fine Game  
and Knocks Out Three Swats—New Play Has First  
Out in Local Contest.

BY GREY OLIVER.

**VERNON, 4, Oakland, 2.**  
After pitching good ball for six  
innings Christian thought he  
would try one of those close-in ones  
on Johnny Kane in the seventh in-  
ning yesterday. Christian looked  
around at second base and smiled at  
fat Roy Hitt, who had scored Bur-  
rell with a double and then Chris-  
tian let fly.

Kane did, too, but his fly went  
over the fence for a home run that  
won the game for the Tigers, and  
that terrific blow was something that  
the Oaks could not recover from.  
In addition to winning the game  
with a home run the fans saw some-  
thing that never happened here be-  
fore in the history of the league, which  
is a thing that caused a big discussion  
in San Francisco, which resulted in  
a batsman being given a base hit  
without having touched the ball with  
his bat. Fine bunch of baseball au-  
thorities up North, evidently.

With one out, Brashear was at bat  
in the sixth inning, and he was at-  
tempting to strike at a pitched ball.  
Catcher Mize's glove accidentally  
touched Brashear's bat and Umpire  
Hildebrand sent Brashear to first on  
the ground that the catcher had in-  
terfered with him. This is according  
to the rules, but was never shown  
here until yesterday.

Hitt heaved for Vernon and chopped  
the Oaks into store-wood with lit-  
tle effort, apparently. A pass and  
Sluggar Zachary's double to the distant  
center fence scored the first Oak run  
and Brashear's error on a grounder  
started the second and final one.  
Christian was somewhat of a bear,  
himself, and he looked like a sure win-  
ner until Kane biffed out that home  
run in the seventh.

## RELEASES AND ALSO CONTRACTS.

(A. P. NIGHT WIRE TO THE TIMES)  
**CHICAGO, May 9.**—The  
passing of William Burns from  
the minors back into the  
major leagues, and the op-  
tional release of Charlie  
O'Leary and Joseph Casey to  
the minors were the features  
of the American League list  
of contracts, releases and sus-  
pensions issued today by Pres-  
ident E. B. Johnson. The list  
in part follows:

cisco: Thomas Tennant; to De-  
troit: F. C. Spencer.  
By Minneapolis to Detroit,  
William Burns.  
By Cleveland to Seattle,  
Bert Whaling; to New York  
(A. L.) Gus Fisher.  
Contracts—With New York,  
J. C. Marlin, with Boston, L.  
G. Nunemaker.  
Suspended—By New York  
(failure to report), E. Elliott.

## CONLEY WANTS TO WHIP WHITE TO SPITE GILMORE.

Owen Bird's Last Peek at the Fighters Before the Bat-  
tle of Vernon—White Took a Day Off to Call on the  
Sailors on the Battleship Maryland—Both Boys on  
Edge and Full of Confidence.

BY OWEN R. BIRD.

**KING ARTHUR** and his knights of  
the round table, with their famous  
tournaments of yore, will have  
nothing on the battle that is to  
be waged this afternoon in the Vernon  
arena for supremacy, when Jack  
White and Frankie Conley lock horns  
over that twenty-round contest. To  
win means Attell or Mandot next.  
There is a personal element which  
adds fuel to the interest in this bat-  
tle. Gilmore brought White out this  
time to give Conley a good beating,  
while Conley would rather win from  
White and make his former manager  
take the small end of the purse than  
own his native town. As a matter of  
fact, if Conley wins this fight he will  
be in a position to own the above-  
mentioned city. Gilmore and Conley  
are decidedly at odds and Harry says  
he knows enough about Frank's style  
to make White win inside of twelve  
rounds. Yesterday he said that he  
felt sure that Jack would get it all  
over inside of ten.

**Conley Says.**  
When asked how about it, Conley  
said, as he lay on the rubbing table  
being massaged by the faithful Turk:  
"I am ready and let me tell you Gil-  
more is going to get a jolt in this  
fight. I know a little about White  
himself. Maybe there's more to him  
than I can't see my head in this game, but just  
have a look tomorrow."

A little line of dope was dropped  
yesterday afternoon by a wise one  
on Conley. Billie Coe, who is without  
a doubt one of the best amateur 115-  
pounders ever developed in the West,  
said that he had been working with  
Conley on the side for several days  
during the week and that the little  
Italian had changed a great deal in  
his ring generalship.

"That boy is faster than a great  
many people give him credit for,"  
said Bill. "And while White looks  
pretty good to me, he is not going to  
knock anybody dead in this fight."

**Some Cold Facts.**  
Now for some facts. White is a  
hard slugging boxer, but one who  
plans each blow as he goes through  
a fight. In this respect Conley car-  
ries a mulling right to his opponent  
taking three blows on his chin for the  
chance of getting one wallop home.  
In the first he has been this way,  
but maybe Coe has taught him to stay  
away and have a little look before  
rushing in blindly. But the point is  
that White can hit like a sile driver  
and Conley is the kind of man he  
can reach.

Now in reaching Conley will White  
leave a hole where Frankie can put  
home one of those famous over-hand  
blows? After seeing him wallow  
Johnny Kilbane in the nose and  
in the twentieth round of their last  
fight at Vernon, we are inclined to  
say yes, because Johnny is one of the  
fastest boys in the "biz."

In condition White has the keenest  
fighting edge of the two at the pres-  
ent time, and if they don't have to  
take off too much weight at the last  
minute, he is going into that ring  
as strong as a young bull and, with  
his ability, should win by a decision  
if not otherwise.

After watching White for over a

week, I am convinced that when he  
hits he hurts, and for this reason  
the fight may be stopped, but Conley  
can be counted on for gameness and  
more than once he has come out on  
the long end of a battle where he  
was the second choice.

**The Last Day.**  
Yesterday, of course, was the last  
day of work for each of the fighters.  
White went on the road for seven  
miles, while Conley covered eight. In  
the afternoon Conley went through  
some light work on the handball  
court and White worked in the  
gymnasium.

Jack was at such a keen edge yester-  
day afternoon that his manager de-  
cided to take his mind off the com-  
ing battle by a little trip to the  
U.S.S. Maryland. The party was  
made up of Jack White, Mr. and Mrs.  
James Dow and the Gilmore broth-  
ers, with the scribe.

The launch was a long time in get-  
ting started from the Venice pier, and  
White got a nice little peeve, as he  
wanted action. Finally when we got  
out into the stream he began to show  
a little more interest, and when Jim  
Dow said he was getting sea sick he  
took a real lively interest, but Jim  
was only pulling a stall.

**Air Thrills.**  
As the launch neared Uncle Sam's  
bull dog Frank Sittler came humming  
over the scene in his biplane, and  
thrilled the crew of the Maryland  
and the members of the White party  
by his daring dips and glides over and  
around the Maryland. As he crossed  
above our boat he dropped a note to  
White, which went overboard, but  
was rescued, and turned out to be  
the "best wishes" stuff, but it tickled  
the little boy, and put him on his  
mental pins again.

On landing aboard the man-of-war  
we were taken care of by Charles  
Pfeils and Andy Wilkins, two of the  
crew of the Maryland. White was  
taken all over the ship, allowed  
to put his head into the big guns, pet  
the goat and tease the parrot; in fact,  
he had a lovely time.

**Oh, Thin Spuds.**  
There is one thing that impressed  
me, and it has nothing to do with  
prize fights, but that the amount of  
spuds used for one meal on one of  
these ships is something awful. They  
have a bin about the size of a trolley  
car full of Irish lemons, and about  
twenty men peeling. They are doing  
this all the time, only taking time  
off for meals. Spuds must make good  
shoots. White took ten minutes to  
get it through his head that all these  
potatoes were eaten at one meal.

**Sailors Cheer White.**  
After seeing everything we had to  
go out, but before going to the meet-  
ing gave White a cheer and wished him  
luck.

But to get back to the matter in  
hand, as the public speaker says when  
he has forgotten the next point, this  
fight is going to have the real rep-  
resentative running from the first bell  
to the last, and if White climbs up  
through the outcome of the fray he  
will be over the body of Conley, and  
vice versa. They will get it, and the  
scales this morning at 11 a.m., and  
then we will have to wait till old Pat  
Time awards the decision. Selah!

At Beverly.

## QUALIFYING ROUND FOR COUNTRY CLUB TOURNEY.

BY ALMA WHITTAKER.

The qualifying round for the Los  
Angeles Country Club champion-  
ship will start tomorrow, when the  
best sixteen will continue in match  
play for that event, and the next  
best thirty-two will compete in the  
spring handicap, which will run con-  
currently.

The issue in the club event prob-  
ably lies between Norman Macbeth,  
the present holder of the title; E. S.  
Armstrong, who, being a member of  
both Los Angeles and Annandale, is  
eligible to compete; Jack Jevne, who  
has distinctly come forth this sea-  
son; Frank Edwards, who is capable  
of springing any sort of play on us,  
and Judge Frederickson, a several  
times ex-champion.

There are the less pronounced  
possibilities of Arthur Brady, who  
can, but frequently doesn't; of George  
H. Schneider and J. W. Wilson.  
From present indications, there  
should be a large enthusiastic field  
of about 150 contestants, with  
young hearts all, notwithstanding an  
occasional middle-aged exterior. And  
merry goes the time when the heart  
is young, there's naught too high to  
climb, when the heart is young—es-  
pecially in the spring handicap, if you  
happen to be blessed with eighteen  
strokes.

And, notwithstanding the alarm  
that has been sounded about the sin-  
fulness of gambling in gold—i.e. back-  
ing yourself for \$5, when you know  
you are the veriest dub—I am pretty  
sure some economical wives with an  
urgent desire for more have started  
that anti-golf-betting campaign, and  
are to be found many hopeful souls  
pinning their faith with touching  
credulity to their own back-sliding  
skill.

If well backed hope is sin, then  
sinfulness will run riot o'er Beverly  
for the next few weeks.

**At Annandale.**  
The Annandale Club will have its  
weekly competition for the medal  
play cup, which is proving such a  
popular feature, and social affairs  
are becoming daily more numerous.  
Miss M. M. Gregg is now added to  
the long list of hostesses who are en-  
tertaining at the club this month. She  
is giving a dance on Saturday, May  
18.

Several small informal luncheon

parties have been given during the  
week and Wednesday saw quite a  
busy day. E. T. Ripley, the Santa Fe  
magnate, was among the hosts and J.  
Hoyt Smith was entertaining eastern  
friends to golf and luncheon. Mrs.  
O. F. Lindemann presided at a table,  
and C. F. Scott had a small party.  
The latter will entertain again on  
Saturday evening in honor of his  
mother and sister.

**Victoria Club, Riverside.**  
Miss Dolly Bettner was the winner  
of both the Bain cup in the last play,  
which her very chic golf costume  
should have immeasurably assisted.  
The Bain cup is a continuous event,  
which has done much to instill en-  
thusiasm into the women golfers at  
Riverside. So far each week has  
seen a different winner, and I under-  
stand the cup has to be won three  
times before it becomes the perma-  
nent property of the fortunate victor.

Mr. and Mrs. Eugene H. Daly en-  
tertained with a lively affair at the  
club on Monday, when they gave a

## ROY AIKEN MAKES A TRIPLE PLAY.

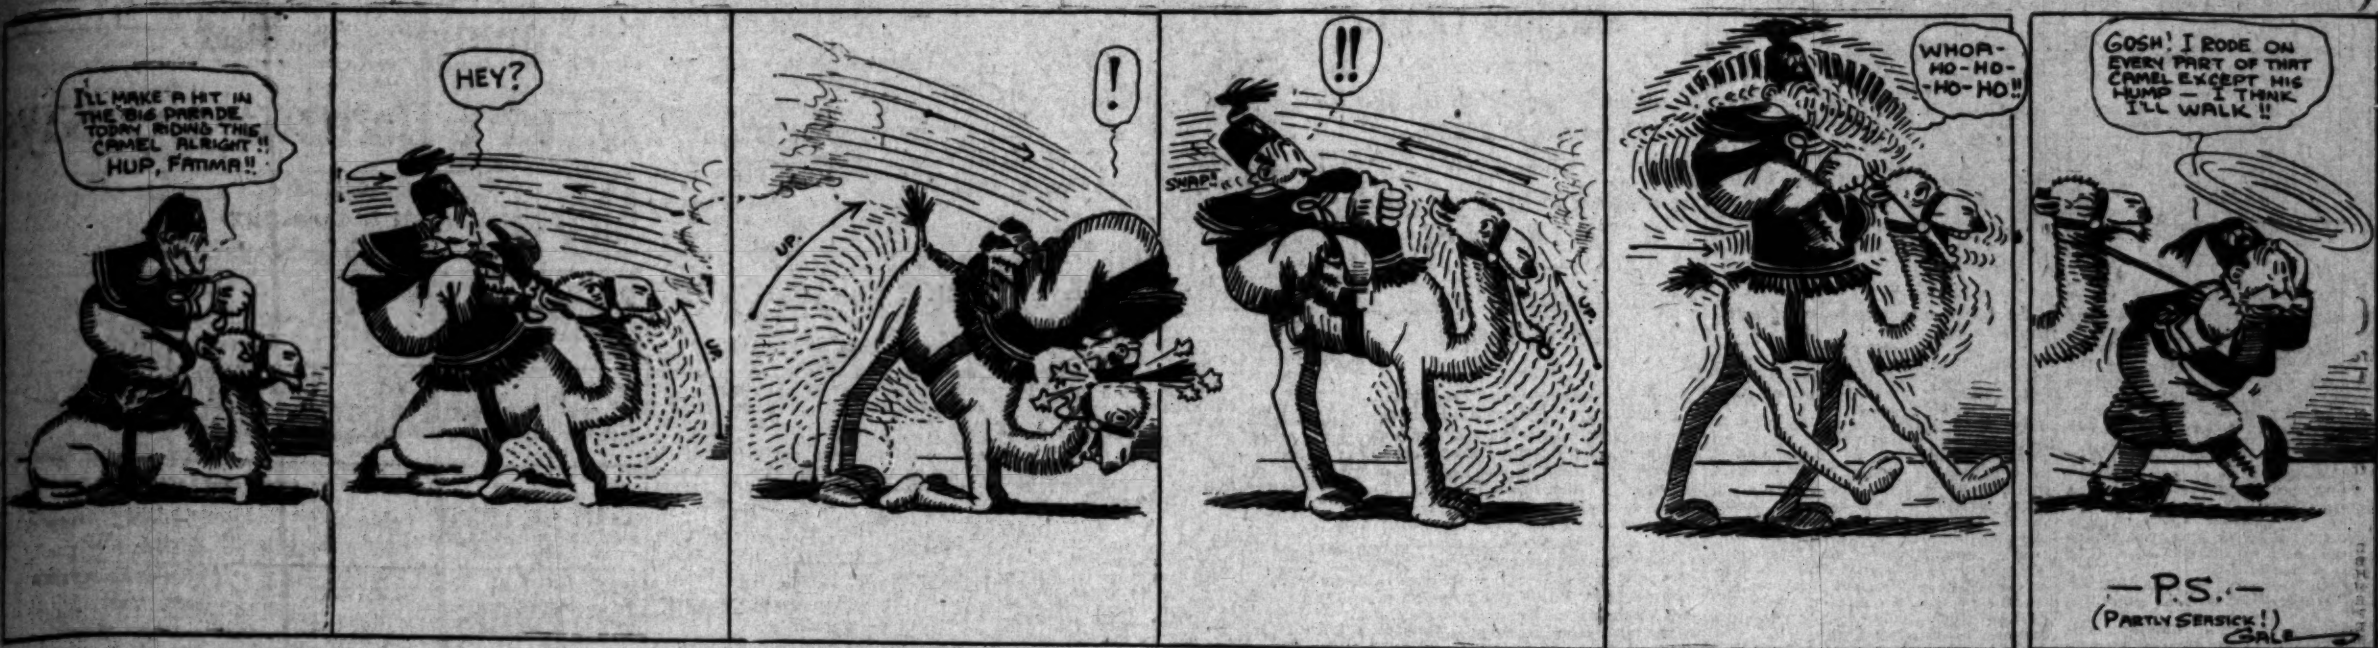

(A. P. NIGHT WIRE TO THE TIMES)  
**HOUSTON (Tex.) May 9.**—  
Roy Aiken, third baseman of  
the Waco club of the Texas  
League, retired the Houston  
team in the first inning of to-  
day's game, with a triple play,  
unassisted. With runners on  
second and third base the Hous-  
ton batsman bunted for a  
"squeeze" play. He bunted the  
ball high. The runner from  
third raced toward home, and  
the man at second base came  
to third, but Aiken caught the  
bunt, tagged the man from sec-  
ond and touched third base before  
the man who attempted to score  
could get back.

## FIGHTER ESCAPES OVER THE ROPES.

(A. F. NIGHT WRITER TO THE TIMES.)  
FALL RIVER (Mass.), May 9.—At the end of the fifth round of a scheduled ten-round bout tonight between Packy McFarland and John Connolly of Scotland, Connolly climbed through the ropes to escape further punishment. McFarland was given the decision.

## DEWITT VAN COURT'S COLUMN.

Jack White and Frankie Conley meet today in their twenty-round fight at the Vernon arena. This fight means a lot to each boy. More so to Conley than to White, who has got out a sensational postal card about himself. Headed as follows: "The critics claim that Dennis is the most promising lightweight of our modern century."

## FROM THE MASON TO THE MAJESTIC

By JULIAN JOHNSON.

Old school, and tinsel ones, were awakened yesterday by Sherman-Clay's order, upon Joseph Morosco, for twenty-five more copies of the one-time-famous Morosco-Montrose comedy, "My Yankee Star Boy."

It seems that "dollar boys" is still selling in San Francisco, when theatrical managers are changing their plans almost as often as they formulate them and everything has to go with a rush.

Joe's last affair in tune was an Indian love-song, which was once sung by Miss Blanche Hall.

Finance, much of it, and the conduct of a combination theater seem to have been the Morosco muse in the backstage chit-chat.

When Joe was only a poor box-office man! Then he was inspired indeed.

Him and George Ade seem to have been doing up prosperity.

Helen Stockbridge has taken to writing songs, and has exuded several which are said to be fairly permissible from the police standpoint.

Maria is also writing a play, and has finished the first act.

When a comedian writes a play, it is invariably serious.

Helen's play is extremely serious.

It is called "Life," and is just as serious as that.

Will the managerial answer be "Death?"

Speaking of song writers, Morosco himself is rather fancy on occasion.

As a lyricist, however, one of his most notable efforts was "Fairiesland," to which Harry Girard wrote the sound-stuff.

Morosco also has a neat and original pianistic ability.

He seems to be a little more than a pianist.

Have another card from Henry W. Savage.

This one was mailed in Burmah, and the manager writes simply—"I'm on the road to Mandalay."

Addie Carlson, the pony-genius of the Fletcher Company, is rapidly gaining recognition because of her cleverness, and not only foot-work, but head-work in the front line.

No, Addie is not thinking of playing "Madame X" simply because she has Marie Star's voice.

Helen Montrose, the opal-eyed sister of the Joseph name above, is studying for grand opera in New York, with Oscar Sangster.

Sam Behrendt ungratefully complains that our series of entirely complimentary notices on his mud-turtle spectacles did him no good in a business way.

What did you expect, Samuel?

## AD WONT BOX.

(Continued from Third Page.)

Ritchie weighed this afternoon 154 pounds.

Wolcott did his last boxing today. He had the gloves on for two rounds with Louis Reese and roughed it for two more with Hobo Dougherty; but the argument was not so strenuous as yesterday.

Outside of the glove work there was a good deal of bawling and bawling. "I will keep on working I would take off too much weight," said Wolcott. "I remember that it has been a long time since I have done any hard boxing, and I want to keep close to the lightweight limit as possible."

MUST OFFER MORE.

An offer of a \$15,000 guarantee to box Packey McFarland ten rounds in New York before the Fourth of July contest in Los Angeles was received today by Tom Jones and Wolcott.

Jones says he is willing to accept the match under certain conditions, but since the money offered is not particularly enticing to Wolcott, it is doubtful whether the proposition will receive much consideration.

Outside of the money end it is not likely Wolcott will be willing to risk his coming fight against Joe Rivers. To the whole Rivers is in a better position than ever to tackle McFarland for the championship.

They will have to offer more than \$15,000 for me to go into the ring with McFarland," said Wolcott. "Not that I am afraid of the Chicago boy, but the money will be a good boost for college sports on the Coast."

If the present plans are carried out the Cardinal carmen will leave for the East, June 8. They expect to arrive at Poughkeepsie June 14, two weeks before the date of the regatta, and put in hard training licks on the course in order to become conditioned and accustomed to the currents and peculiarities of the river.

The Cardinal crew that defeated California and Washington in the triangular regatta last month will be intact for the trip, except that Wickman of Honolulu will be unable to go East. However, "Doc" Schupp, former "varsity" stroke, probably will take Wickman's place. If this change is made the crew probably will be stronger than ever, as Schupp easily could have made a place in the "varsity" boat if he had turned out for crew this year.

Sims, the English boat builder, from whom Stanford ordered a shell several months ago, has advised the student body that the craft will be delivered at Poughkeepsie June 14. This means that the crew will not be handicapped by rowing in a borrowed boat but will have the best possible craft.

THE RACE TRACKS.

Alten Atchison, a crack jockey who was suspended at Oakland several years ago, has been re-instated. His last ride for Sam Hildreth, Derby candidate began his trials yesterday for the Kentucky derby at Churchill Downs next Saturday. Free Lance and the unbeaten Hawthorne are attracting great attention.

STANFORD TRIP FOR STANFORD CREW SURE.

(Special Correspondence of The Times.)

STANFORD UNIVERSITY, May 8.

Everything seems to be cut and dried in regard to the plan of sending the Stanford "varsity" crew to compete in the intercollegiate regatta at Poughkeepsie, on the Hudson River, June 28. About \$2000 will be needed to send the men East and already \$1400 of the amount has been raised. The student body donated \$500 and the remainder was given by students and others.

This project is considered the most important that has been pulled off in connection with Stanford athletics.

The crew will have the opportunity

## STANFORD MEN SEE BIG YEAR.

Football Team Will Be the Strongest in Years.

Louis Cass Will Have Band of "Vets" Behind Him.

Crack Australian Team to Visit California.

(Special Correspondence of The Times.)

STANFORD UNIVERSITY, May 8.

Next fall looks like a big football season to Stanford students, and from present indications the Cardinal is going to "come back" strong.

Three successive years California has won the big game, but on paper it looks as if Stanford would be the favorite when the big contest in November rolls around.

Louis Cass, "12," of Los Angeles, will have a large number of veteran players behind him, and it is this state of affairs, taken with the fact that California has lost a large number of the players who have figured in the last three games, that makes it look like a Stanford year.

Cass is expected to prove one of the best captains that ever led a Stanford team. He is the best half-back that has played Rugby for Stanford, and in addition, he has all the qualities that go to make up a good football skipper.

He has been playing football for seven or eight years. While at Los Angeles High he was the best little quarterback that trod the grass in the South, and he was captain of the team that won the State championship in 1908.

George Presley, the Stanford coach for the last three years, again will be on hand to handle the squad. He has consented to come down from San Francisco three days a week and direct the proceedings. Presley will do this without receiving a salary.

The days of paid coaches are over at Stanford. Capt. Cass and other experienced men in the squad will conduct the field work. The arrangement is satisfactory as when the head coach was on the field all the time.

SEASONED PLAYERS.

The team that Stanford will put in the field will be composed almost entirely of veteran players, and if the Cardinal does not take California's measure in the fall it will be several years before it accomplishes the feat.

As the outlook for a victory is decidedly better than it has been for four years.

In the scrum, Al Frank, "13," of Los Angeles, and Gard, "14," of Glendora, who played the breakdown positions

last year, will be back. Frank put up a wonderful game against Califormia last season and with Pauly of California to be the most effective performers in the scrum. Gard is not far behind Frank in effective work, and with these men at the rear of the team the Cardinal will be well represented.

"Doc" Schupp, last year's lock, will return to the university. He is the strongest man in the pack and his great weight and strength are valuable assets.

"Jack" Partridge, side ranker last year, also will be on hand. Partridge is the biggest man in the bunch. He is crew stroke and captain-elect of the crew, and is just as good a football player as he is a oarsman.

"Kenny" Dole, "11," of Riverside will be missing from the side-rank position. Fred Watkins, "14," of Los Angeles, who got into the big game as substitute last year, and Hubbard, "12," of Redlands, an able man in the scrum, will be back.

In the front rank, where scrappers are needed, Stanford will have a bunch of veteran players from which to choose three men. "Auzie" Sanborn, "13," of Redlands, who played on the fringe line last year, will return.

Corbet, "12," who was a substitute last season, and got into most of the preliminary games, will be back. Courtney Decius, "13," a star of the old game, will be back.

He has an excellent chance to make good. He has been ineligible since transferring to Stanford, but he has been learning Rugby and shows promise of doing as well as the English sport as he did in the old game.

STRONG BACKFIELD.

In the backfield, the Cardinal will be exceptionally strong in the fall. Capt. Cass will occupy his regular berth at half-back, which means that the position could not be in better hands.

Although Becker, the first-place pitcher for Pomona, was used in the game Wednesday, an almost as good twirler will be tossed tomorrow in Daniels, who had the figure 100 in the first game. In that contest he fanned fourteen men.

This game will be the last the Tigers will play this season if the report is true, that none of the tie games are going to be played off this year.

In the absence of "Scotty" Allen, Goyhenich will probably umpire.

TROJANS AND QUAKERS CLASH TOMORROW.

The Trojans and the Quakers are to mix in what promises to be a game of tight baseball tomorrow on Bovard field. The game will in all probability depend on whether Oliver can come back after the awful drubbing he got at Pomona last Saturday. Dur-

ing the first games of the season he was a mystery, but now one team has found him, he stands a good chance of being hit hard.

U.S.C. will be handicapped by having its best pitcher, Haskell, worn out by the eleven-inning game Wednesday and Benson will have to handle most of the pitching. Benson is far from being a third-rate pitcher and he will, it is hoped by the Methodists, prove enough of a mystery that they will not have to use Haskell.

This will be the last game of the season for the university, while Whit-

ter plays Pomona for the last game of the college season next Saturday at Whittier.

SPRING RUGBY TRAINING.

"Smoke" Adamson to Have His Men Out for Practice Next Tuesday Afternoon.

Capt. "Smoke" Adamson of U.S.C. has issued the call to arms and his Rugby candidates will be mustered on Bovard field next Tuesday afternoon for the first intercollegiate spring practice ever held in Southern California, by followers of the English sport.

The big captain is well pleased with the prospects of a winning fifteen next fall and this preliminary practice will serve to give the leader and Coach Manning a line on the material which will be available when the season opens.

A number of last year's stars will be in the harness when the big practice starts after the summer vacation, and there is every prospect that the "gold" will have a Rugby team of the winning type developed before the big games come off.

The coming season should be a winner for lovers of the imported brand. Games will be played here by the big teams from the North and with the Sherman Indians on the war path and the possibility of the braves from Phoenix going through here on a Rugby tour, the football card will be well filled.

## FACTS, FEATURES AND FANCIES FOR WOMEN AND MEN BY OLIVE GRAY

DAILY BEAUTY HINT: In your complexion is already in a state of a soothing lotion which may be applied permanently.

During the rush and excitement of preparation for the Mission Parade, there were some amusing incidents.

As a rule, people were good natured, but one very pretty lady, (let us be polite) had evidently been dragged far and away by a nervous and very husband and she was cross.

Had she been a man, I would have envied her husband. A dull mother-in-law and her visage looked like a rugged mountain peak in a thunder storm.

"Here I am, all tired out, and my 'bar' in the block. High enough for the littlest woman,"—and then saying the lady of weight—"or strong enough to hold the heaviest kind of person."

"What'd you want for it?" snapped the husband of the heavy woman.

"Ten cents, only ten cents! Best buy on the street! Yes'm I'll old y' and y' can see the 'pride' just fine from the top of my head!"

The "bar" was purchased and the lady of weight was dolled by her slender half, who continued to prop her up during the passing of the procession. The "bar" was about the size of a gallon can, and it was a marvel that madame could manage to stand several times its weight upon it.

I believe her husband would have purchased it, had the young merchant said several times its weight upon it, since it was a "bar" of peace for him.

California for Miss.

Such a glory of California poppies, peonies, roses, hundreds! They form the centerpiece in the window of one of the exclusive cornerettes on Broadway, and many an exclamation have they elicited from visiting shriners and their friends.

They are native poppies and were gathered from the fields and hillsides. Exactly matching the deeper orange of the center of the native flowers, is the drapery surrounding the centerpiece, forming an artistic ensemble.

The center figure, which appears above this huge bouquet, wears the "very latest thing in hats." It is the correct hat. Clever and original in its creation. It could not possibly be mistaken. It is in fact a corset shaped into a huge fan and the pendant tassel is formed from the dancing garters.

Quite as Much Interested.

The women who saw the parade were not too much interested to forget to look for bargains and they found them.

Around a Broadway corner, where was displayed in the sumptuous window a collection of gowns to be sold at special prices on Saturday, women were as thickly congregated as bees around a honeysuckle.

The advance guard of the army was first sighted there and the rebels were at once 'twenty-two' dead have been brought in from the battlefield and double that number of wounded, all rebels."

In reply to a telegram from President Carr asking for more details, Gen. Huerta sent a further message which read:

"The field has not been gone over since the battle, which was only first laid out by the rebels. The army is carrying wounded from the field in two automobiles. These are supposed to have been rebel leaders."
